Library Club Members At Convention

By RAYMOND SOUTHARD

Four members of the Franklin High Library Club attended the annual convention of the North Carolina High School Library Association, which was held on the campus of Woman's College April 24-25.

Steve Bundy, Mary Jo Henderson, Kathryn Jones, and Paul Cabe were the delegates from Franklin.

This was the first year that the convention was held on the campus of a college. Two delegates from each club were guests of the campus for the two days. The other delegates were lodged at the King Cotton Hotel in Greensboro.

Approximately 400 high school students from many schools over North Carolina attended the convention.

Dr. Philip Weaver, assistant superintendent of Greensboro City Schools, gave the principal address after the banquet Saturday night. Following the banquet, a dance and entertainment highlighted the evening.

This makes the second consecutive year that delegates from Franklin High have attended the convention.

Mrs. Mamie Y. Scroggs, club sponsor, and Mrs. Steven Bundy accompanied the delegation.

News In The Making

By BOB S. SLOAN

By BOB S. SLOAN

Last Friday the largest paper-making machine in the world was installed at Champion Fibre mill in Canton. The installation of this machine starts one thinking of many things concerning this outstanding company.

As a boy I can recall everyone saying that soon we would be out of wood for the Champion people and Canton would be a ghost town. Now some thirty years later we find them expanding their facilities. Undoubtedly the U.S. Forest Service and its conservation methods in Western North Carolina are in part responsible for the continued supply of wood.

However to Champion Fibre Company must go the lions share of the credit, and there are several reasons for their outstanding continued growth.

First, Champion Fibre Company has no unions. With their above average salaries for the area, paid hospitalization plan for their employees, and retirement plan for faithful workers they have stayed ahead of the clamor of the dissatisfied. In addition to this Champion has been a great supporter of the YMCA in Canton, they have a fine recreational area (Lake Logan) for their employees, and their oldtimers club and its recreational facilities bring joy and contentment to many an "old-time Champion Man."

Undoubtedly this has cost Champion Fibre Company, but they have been well paid for their investment. For one thing they have been able to continue without strike interruptions a program of research, development and planned growth.

Had they been faced with the problem of settling strikes agitated

by irresponsible outside leadership eager to exploit local unrest for their own gain they could not have spent the time or money in research necessary for such a program. It has cost, but it has paid Champion Fibre Company well.

It is teacher hiring time again. We certainly hope that Macon County School officials will leave no stone unturned to secure a band director this year. If the school officials in Swain, Graham, Cherokee, and Jackson county can find good band directors, shouldn't our people be able to also? We believe the people of Macon County and the patrons of the Franklin High School want a band.

I have heard a rumor that Guy Sutton will be the Principal at Highlands high school for this coming year. For the record I would like to say that, if this is true, Highlands high may make rapid strides in the next few years. If Mr. Sutton holds his temper and curbs his desire to take over the county school system he can do one of the best jobs of any man in this part of the state, I think.

The annual cost of poultry diseases in North Carolina has been conservatively estimated to be \$12 million, or 10 per cent of the gross cash receipts.
