

### CITES NEEDS, AIMS — President Of Association For Retarded Is Speaker For Retarded Is Speaker

Speaking here recently, the head of the N. C. Association for Retarded Children called the community "the firing line" in the fight because about 85 per cent of retarded children remain in their communities and their needs must be met there.

Charles Waddell, of Asheville, also said it is the goal of the state organization to have a chapter operating in every county. He was highly complimentary of the work being accomplished by the local organization.

Of the funds raised by local chapters, 50 per cent stays with the chapter, 35 per cent goes to the state, and 15 per cent to the national organization for advanced research.

He urged local members to go out and find children that need help, "and then do something for them".

Mr. Waddell cited five points the executive committee of the state is stressing this year: (1) to become a state member of the national organization, (2) to further educate the public to the needs of the organization, (3) to have a local unit in each county, (4) to work closer with state schools and with job placement programs, (5) to help in getting a survey of educatable children.

#### Routine Business

Held January 12 in the high school library, the chapter meeting also was featured by routine business. Mrs. Furman Angel reported 50 family memberships, with \$75 for the state organization. Of this amount

\$25 will come back here for work with the retarded.

The secretary, Mrs. Marion Bryson, reported receiving \$20.32 from the Otto P-T. A. and she said letters of appreciation had been mailed not only to Otto but to Cullasaja P-T. A. for its recent contribution.

A letter of appreciation for her work has been sent to Mrs. George Byrd, who resigned recently as vice-president.

The organization voted to publish a monthly bulletin to keep the public informed of the work under way in the county.

#### IN TWIN-CITY

"SUCCESS DEPENDS ON  
PREVIOUS PREPARATION"

To some, success means much money or outstanding accomplishment. To others achieving contentment is sufficient.

One thing is certain. It is difficult to enjoy any success without a healthy body. Just as you study to prepare your mind for success, you can also prepare your body. The first step is to visit your physician for a health check-up. Then, place the future health of your body in his care. Follow his suggestions for diet or weight control. Take the sustaining or corrective medicines he may prescribe. You can prepare now for future better health.
