Where there is no vision the people perish! Last Summer the people of Johnsonville demonstrated their progressiveness by voting a bond issue for the construction and maintenance of good roads through their township. Such movements are highly commendable at any time, but recent developments have proven that their action was especially timely, since when this work is started it will furnish employment for all who wish it, as well as furnish work for practically all teams in the community, thus lessening the burden brought about by the present depression. All details in connection with the project have been attended to and road builders have been in conference with the Township Commissioners during the past ten days, and we are advised that actual work on the roads will begin sometime during the current month.

Rev. S. A. Edgerton of Buies Creek conducted services at Pineview last Sabbath. Heretofore, Rev.
