#### WHY NOT TELL US

ny a week passes but we bump  
e Vass citizen who asks:  
idn't you have something in  
er about So-and-So; I thought  
dy knew about it." And that's  
hey make a mistake. The  
ou hear may be a long time  
to the editor. You may think  
mmon talk when, in fact, not  
an a half-dozen know about it.  
t think the editor is a mind-  
or that he has a way of finding  
s without people telling it to  
March right up or call up and  
n that which you have heard  
ich you believe would interest  
when they see it in the paper.  
s but a few seconds, and it will  
onderfully to make the very  
paper you want printed in  
ome town. Don't wait until  
er has come out to tell him the  
that are news to you. Prac-  
at modern slogan: "Do It

say elephants were once to be  
in Texas. But that must have  
before the country went dry.
