

## Facts, Figures and Farmers

MARION W. WALL, County Agent

### We Want Good Exhibits

If anyone has any good farm products that will make a creditable exhibit we would like to receive same. We are collecting from time to time exhibits for the State Fair. We have secured a space of 16 x 40 feet at the State Fair and it will take quite a number of exhibits to fill this space therefore, let me urge that you either bring in these exhibits at any time or notify the county agent and he will call and get them.

### Meeting at Jackson Springs, June 1st.

The Jackson Springs Community Club has invited representatives of the other community clubs to meet with them on Wednesday, June the first, at eleven o'clock, for the purpose of outlining a definite program of work for the next several months. Each Community Club will send a delegation and the needs of each community will be discussed and a program for the various meetings will be published later.

### Farmers Meet at Pineview School House

On last Saturday evening there were nineteen farmers present at Pineview School House and the subject of cooperative Cotton and Tobacco Associations were discussed; quite a bit of interest was manifested in this meeting and the subject was left for their decision. Other meetings will be held within the next two weeks on this subject.

### Cameron Club Has Interesting Meeting

Last Friday night the Cameron Community Club had a very interesting meeting; the subjects of Sanitation and Community Telephones were discussed. We hope to publish these discussions at some future date. Committees were appointed to look after the various departments of the community fair which will be held on Oct. the 12th.

### Photographs Will Be Taken

We propose publishing a bulletin on "Moore County and Its Opportunities" within the next few months and any one who has a good field or orchard or any products that will make a good picture is asked to let the County Agent know it and he will take a photograph of the same for this bulletin. We hope to make this a good advertising medium for the County and we earnestly ask all to respond to this call.

### To Destroy Cabbage Worms—Liquid Treatments

1—Mix one ounce powdered Arsenate of Lead with one gallon water, and spray the plants thoroughly. An ounce is about one tablespoonful. If you have no spray pump, use a sprinkling pot having a fine nozzle.

2—Mix one ounce Paris Green with 5 gallons water and spray as directed in 1. Or mix one pound Arsenate of Lead with 20 gallons water, and apply with a spray pump.

### Dry Treatments

3—Dry air-slacked lime.....1 pound  
Paris Green.....1 ounce

Mix the two together thoroughly until all is one uniform color with no spots or streaks showing more green than others. Tie into flour sack, or other thin cloth sack, and shake over plants to be treated. Apply enough to whiten leaf slightly. The mixture will adhere better if while the dew is on. The powdered Arsenate of Lead will stick longer than the

Paris Green, and is not so apt to burn the foliage as Paris Green.

4—Powdered Arsenate of Lead.1 lb.

Cheap dry flour, air slacked lime, road dust, or sifted ashes.10 lbs.  
Apply in same manner as in No.3.

### CO-OPERATIVE MARKETING

We are living in a period of reconstruction and readjustment of business generally. Every class of people engaged in different lines of business is organized for the purpose of providing just and equitable business relations with whom they deal. The farmer, however, who is the greatest producer of wealth in this country is unorganized, and it seems that it is going to be hard to convince him that organization is absolutely essential in the successful management of his business. Under the present system of selling farm crops we are permitted to produce and deliver to the purchaser. The price under this system is arranged by the companies that buy, and in arranging the price it is to their interest to make a profit. In order to obtain a fair price the farmer must be organized to sell as well as the manufacturer is organized to buy and re-sell. The farmer selling individually to the big manufacturing interest is at too much disadvantage. Strong selling agencies with million pounds of tobacco or cotton behind it will have the ability to make successful sales. The California farmers last year did a business of \$250,000,000 thru cooperative selling.

If you are not thoroughly familiar with the Co-operative Marketing Contract, secure one from your County Agent and study it carefully.

The tobacco companies have already offered to buy from the Virginia growers who have already secured over 50 per cent of the farmers

### ADMINISTRATOR'S NOTICE

Having this day qualified as administrator of the estate of Daniel A. Smith, deceased, late of Moore county, in the State of North Carolina, notice is hereby given to all persons holding claims against said estate, to present them to the undersigned on or before April 19th, 1922, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate are requested to make immediate payment.

This April 19th, 1921.

W. D. SMITH,  
Administrator

### MONUMENTS & TOMBSTONES

sign-up. Virginia, however, cannot arrange this contract until 50 per cent of the three states covering the Flue-Cured Belt have signed up as much as 50 per cent.

Are the farmers in North Carolina going to hold this movement back, or do they intend to sign up like men and place themselves in a position to do business? I want every farmer to ask himself this question: Am I willing to continue to produce world necessities and deliver them for someone else to fix the price, or should I join an organization of farmers that will assist me in negotiating a price that will pay me a reasonable profit? You are going to decide this matter for yourselves, and upon your decision will largely determine your success or failure on the farm. The prosperity of this country, its future progress and development is hanging in the balance. The responsible duty de-

volves upon the farmers of this country to determine our future progress and especially the improvement of rural life which must come from an increased income on the farm. What are you going to do about it? A great movement is awaiting your action.

T. D. McLEAN

No better time was ever had fishing than Mrs. J. R. Thomas' Sunday School Class of Junior boys, of the M. E. Church, enjoyed on Tuesday of this week. They managed to pull 37 fish out of Lakeview without any trouble. The party of anglers consisted of Mrs. Geo. Griffin, Misses Clara, Mildred and Rebecca Thomas and Messrs. Albert Graham, Bryce Griffin, Earle Edwards, Robert Laubscher, Ralph Allen, Horton Keith and J. R. Thomas, Jr. We understand the bait that was used will be patented.

## Seal Your Garage Walls

You can quickly and easily seal your garage walls with Beaver Board. All that you need is a saw, a hammer and a few nails. The finished result will be a perfectly sealed room—one easy to keep clean and warm in summer and winter.

You can't expect Beaver Board results unless this trade-mark is on the back of the board you buy.

You really should have a pleasant place where you can work on your car. And you can make your garage pleasant any Saturday afternoon.

We can supply you with the genuine Beaver Board. If you will stop in any day and tell us the size of your garage we will have the material delivered so that you can finish the in an afternoon.
