UNION COUNTY'S BIG VOTE

(Monroe Inquirer)

In 1920 the six counties composing the 13th Judicial District cast 18,864 votes for Morrison for Governor. This is an off year and not so many votes will be cast this year in the primary. Union county can cast more than half that number of votes if our Democrats will turn out and vote. Union has more than 10,000 white voters in it, and nearly all of them are Democrats. In 1920 the census gave Cabarrus county a population of 33,730 and in the same year that county cast 9,620 votes in the general election. The census gave Davidson county 35,201 people and in the same year it cast 10,751 votes. The same census gave Union county 36,029 people. Why should Union county not have 11,000 voters? There are not over 1,000 Republicans in the county and we believe that Union has 10,000 Democrats in it. If our Democrats register and vote there can be no earthly chance of defeating Stack for Judge. Let every Democrat in the county see that his or her name is on the registration book—and then vote.
