In some people the main use in government is to have something to do with things on.

It has also been the experience of many people that the wages never skip a pay-day.

As far as Vass is concerned it looks like spring was a long time getting here this year.

TALLYRAND AND FIREFLY

(Continued from page 2)
 Then the greatest bulk of the pack made a rush for the pass right over the bodies of their dead and wounded comrades, and in the thickest part of the mass the spare guns were emptied into them with great slaughter; but a great majority of the pack escaped through the pass and were gone.

Old Horseshoe soon arrived on foot and with his club dispatched all the wounded wolves, and then they counted the kill. The boys had killed fourteen, and the old man had gotten six, making twenty in all.
 Then came the skinning. Did you ever see an Indian skin a wolf? Well they have a clamp made for the purpose to clamp the nose, with a small iron to run through the mouth behind the canine teeth, and a short cord attached to the clamp. The clamp is

attached to the nose, and the cord tied to a tree. Then one circular swipe with a sharp knife cuts the skin all around the mouth. The knife is then inserted under the skin on the forehead and in this way the ears are cut from the head to save the scalp. Then the Indian lays his knife down, takes hold of the skin at the cut with both hands, and rip! rip! rip! and the wolf is not only skint, but his hide is neatly turned flesh side out.

To be continued

As we see it there's more "con" than anything else in these world conferences they've been holding recently.

It begins to look as though about the only time the Ku Klux Klan gets to wear its uniform any more is when it attends a funeral of one of its members.

Be Careful and Systematic

People who pay their bills by check get a reputation for being careful and systematic in their business dealings. Such a reputation means much in the establishment of credit. It costs no more to pay your money out by check than it does to use the hard cash, and you have the advantage of having it in a place that is absolutely safe. To have money in the bank is of itself a valuable asset in the establishment of credit. And it is possible to practically everyone without one cent of cost. It takes no more money to do business by the checking method than it does by the cash-in-hand method. We invite you to open a checking account with us. We will help you to make your account a real convenience.
