COTTON GROWERS' CO-OPERA-TIVE ASSOCIATION

RALEIGH, July 20.-Announcement of the approval of the application of the North Carolina Cotton Growers' Association for a loan of ten million dollars to finance the orderly marketing of this season's crop has been made by the War Finance Corporation.

The announcement was made following a visit to Washington by a delegation from the North Carolina association, which was headed by W. H. Austin, of Smithfield, president of the Association, who was accompanied by Dr. B. W. Kilgore, director of the North Carolina Agricultural Extension Service, and former Congress-man Lee D. Robinson, a director in the Association, of Wadesboro.

A. Wilton McLean, of Lumberton, a former member of the War Finance Corporation, who recently retired after rendering distinguished service, accompanied the Tar Heels to Washington and aided in presenting the claims of the North Carolina farmers.

The War Finance Corporation will make advances on the cotton of the 27,000 members of the Association up to fifty per cent of its value through local banks, which will provide for the remainder of the advance on the cotton. It is not expected that it will require all of the ten million dollars, as local banks will be in a position to take care of a large part of the loans needed to finance the orderly selling of this year's crop.

The North Carolina Association is putting on a sign-up campaign for the first two weeks in August, which is expected to result in bringing the total number of bales of cotton rep-

While nothing definite has been decided as to details, the following has been ner. suggested: Elect a King, Queen and M Court; hold a Court scene, with pa-rade, etc., probably at the Pinehurst Fair Grounds, although the Legion is desirous of having the benefit of an orchard background for this.
