### "HER REPUTATION"

Manager Picquet Announces Another Special That Will Please the Most Hardened Fan

"Her Reputation" sounds like something which isn't. There have been so many of the "eternal triangle" pictures on the market that a title like that above might make some think that it was "another of those things," but we want to assure our patrons that we have screened it and we know better.

Thos. H. Ince has many big specials to his credit and we think this is one of his best.

In the first place it has a story that is a real one and one that touches the life of every community, large or small. He has dressed this story with some of the most remarkable scenes we have ever looked at. Among them is the great flood scene in which the waters of the Mississippi river overflows the levees at New Orleans and sweeps all before it. It is the real thing, too, no fake. Another is a forest fire equally as realistic and awe-inspiring and there are many others too numerous to mention. Interspersed are some delightful comedy scenes handled in that deft way in which Mr. Ince is so adept.

The cast is truly all star, headed by beautiful May McAvoy, ably supported by Lloyd Hughes, Casson Ferguson, Eugene Besserer and Winter Hall.

We promised our patrons big specials for this summer and we are leavin it to them whether we have kept that promise. We consider "Her Reputation" as one of the best of the summer attractions.
