Buy farm seeds early, suggest agronomy workers of the State College. This gives you an opportunity to select a quality product.

For Everlasting Economy

FACTS

You Should Know About Them

They have always been conceded to be the most beautiful. They are unquestionably the most durable for they have been known to last over a century.

They are obviously more sanitary than the dusty tacked carpet and, of course, much easier to keep clean.

Oak floors increase selling and renting values. Ask any real estate man in town.

Cost Less Than Carpets

For less than the cost of ordinary flooring, plus carpets, you can have shining, dustless Oak Floors, of which you will always be proud and which will improve with age.

New Oak Floors Over Old Floors

A special grade of light (% inch) Oak Flooring is made for just this purpose, giving you splendid new floors with the old as sub-floors.

Perhaps you feel like many people, that Oak Floors are a costly matter. This is a mistake as the figures prove. If a house is worth building or remodeling it is worth Oak Floors which are a real economy in the end.

Come in and see us or write or telephone for our booklets which give you detailed information about Oak Floors and their uses.
