Mrs. H. P. McPherson who has been quite successful in poultry raising,

says when she finds out something beneficial about chickens and raising chicks she wants others to know it: And that Sodium Fluoride is the only vermin destroyer she has ever used that proved successful. Her plan is to put just a pinch of the powder under the wings and about the body of the sitting hen, then when the chicks are hatched they are perfectly free of vermin of any kind, and grow off quickly and are thrifty.

Does a hen set, or sit? Both. A hen sits on her eggs, and she is set in her ways. Sometimes she's set.

Mrs. J. A. McPherson and Miss Lula McPherson are partners in a dewberry field of four acres, and plan to do all the work required. They are now busy tying up the vines. Lula says this being leap year, she is expecting great results from her share of the crop.

Don't let the April breezes tempt you to pull 'em off. They may be worn, and a trifle uncomfortable; but best stick to 'em 'till May.

I remember hearing of an old gentleman, who throughout the entire Christmas season dispensed hospitality with a lavish hand. Many were the visitors who came to his home; but once he was heard to remark, he'd be whipped to the devil if he thought Christmas would break that year. I feel that way now about winter, and buying wood.

Kenneth and some other boys were riding the horses to water. Two of the horses began fighting, one of the fighters being the horse on which Kenneth was riding. He fell from his horse and was kicked by the other. Dr. O'Briant is in attendance, and Kenneth is doing nicely. Whether he'll tackle a horse soon again remains to be seen. He is quite fond of horses, prefers a horse to a bicycle.

**WHY FAMILY EXPENSES ARE LIKE AUTOMOBILES**

Money in the home takes the place of "gas" in the car. It furnishes the motive power. The pace you travel depends on the amount you "feed" the engine!

It needs a steady hand at the wheel, a sure foot on the gas and brake, in the home just as in the car. In fast spending, as in speeding, there is danger.

The cars that give the best service are those that are driven carefully at moderate speed.

The family that gets along best is the one that saves consistently, spends wisely, steers carefully to reach the goal of better conditions.
