Kittell, two days of last week. Mr. Wilson said it was hard to find Pinebluff, and that we should advertise more by markers along the route. Some think that perhaps we have lived too much within ourselves to be very well known through the state, and perhaps we may have been a little fearful lest we attract too many of the sporting and pleasure-loving crowd that several of the other resort towns are bidding for. Some of us have felt that this Sandhill section should afford at least one town where the Christian Sabbath was respected, where Christian people could come and rest and recuperate in body and spirit, and enjoy life in the good old way which has made our nation the greatest civilization on earth today.

Pinebluff is located seven miles south of Southern Pines, on the Dixie highway, on a natural bluff, well-drained, and with the purest of spring water and an abundance of sunshine. Two good churches and a good school, two garages with good auto service, and two other other auto men to carry all who like to attend the sports in the other towns. In a very short time all can have all the excitement and thrills they like, and the half-hour ride in the pure air will do them all good.

Mr. Albert Adams, of Southern Pines, is decorating the inside and outside of Mrs. Mary E. Akins' house at Needle Knoll. Mr. Adams is an expert workman and knows how to do an excellent job.

MR. IVY WRITES

Editor of the Pilot: While it may not see so to the unobservant, yet the presidential campaign before us must be regarded as the most momentous since 1860-61. Upon its results will depend whether the United States is to continue and go forward as the most enlightened democracy in the world or will start downwards towards that extinction which has come to so many similar governments because of corruption in the government itself.

For that reason we should send our best men to our county convention, for upon the action of these conventions will depend the character of the state convention in Raleigh.

Our Dry Cleaning and Pressing Department does the very best work possible, and have installed a

MODERN STEAM PRESSER to take care of the increasing business in that line. Special attention paid to work for ladies.

The Pilot and the Kiwanis Club

The Pilot has been asked why it is a member of the Kiwanis Club, and why it gives so much attention to the meetings of the club. The answer is not a difficult one. The Kiwanis Club is a gathering of men who meet once a week to discuss questions of local interest, and to get better acquainted with each other. This one feature is highly commendable. But another is more so; at each meeting a speaker delivers an address on some timely topic of local importance. These addresses are by men who are representatives in special lines, and what they say comes with high authority. Their subjects are not restricted, and what they say is limited to one requirement: it shall be an honest opinion, and the viewpoint of the speaker is a matter of his own choice, for truth is entitled to an open field.

For this reason the Kiwanis Club is giving to a bunch of nearly a hundred representative business men of the county a post-graduate course on those topics, that directly concern our own community and its relations to the world, and it is a mighty interesting fact that at every meeting this bunch of observant men sit and listen with the keenest attention to the speaker from the beginning to the end of his talk.

Now, the Pilot would be glad

The Republican party as now organized has shown its unfitness to be entrusted with power. The country awaits the action of the Democratic party with the keenest interest. So let us, in the convention at Carthage next Saturday, meet the requirements of the occasion, and send a delegation to Raleigh that will put Moore county on the political map.

Yours truly, THOMAS P. IVY.

Properly cared for, the home garden is an object of beauty and is a silent but impressive testimony of the indivisibility of human effort; so many people in so many places have worked together for its creation; it demonstrates clearly the possibilities and results of co-operation.

It is possible to dress with simplicity, taste and becomingness, without a great outlay for clothes, say home economic workers for the State College. A good time to start is with the graduation dress this spring.

this day when so much attention is given to education, it seems helpful to put before the older folks of the community these substantial things to think about, as well as to devote time and effort to the education of the children. The Kiwanis Club is giving the county a generous lecture course, and so far every lecture has been worth all the space it has been given in the papers and more. We are all too much wrapped up in our own restricted views, blind to the broad truths that are all about us. If the Pilot can break down some of this isolation and let knowledge filter in from other men and minds, it believes it is doing a good job. That is why the paper is a member of the Kiwanis Club. That club is a club of education and progress.
