WHY FAMILY EXPENSES ARE LIKE AUTOMOBILES

Money in the home takes the place of "gas" in the car. It furnishes the motive power. The pace you travel depends on the amount you "feed" the engine!

It needs a steady hand at the wheel, a sure foot on the gas and brake, in the home just as in the car. In fast spending, as in speeding, there is danger.

The cars that give the best service are those that are driven carefully at moderate speed.

The family that gets along best is the one that saves consistently, spends wisely, steers carefully to reach the goal of better conditions.
