Little River Store

Vass, North Carolina

: **The BEST Place in the Sandhills to Do Your Buying.** :

Gradually the shelves and tables in this big store are taking systematic shape with the new stocks that have been coming in, and the classification that has been going on, and now business is invited with the confidence that the buyer can see clearly the advantages that are to be enjoyed in making this establishment the principal dependence for practically everything needed about the home or the farm.

THE LITTLE RIVER STORE does not propose to make any whirlwind campaign and sweep the world off its feet. The expectation is to get acquainted with the people and have them become familiar with the stocks we carry, with prices, with qualities, with varieties, and with the business methods we aim to carry out.

THE LITTLE RIVER STORE is established for a long business career, and its plan is to lay down such business policies that those policies will satisfy the people of the Sandhills that we know how to buy goods, and to give the buyer in every transaction a fair return for his money.

THE EXPCTATION is that the Little River Store will be run in such a way that anybody buying once will be encouraged to come again, and to make this store the headquarters for community trade.
