tion, especially to be devoted to the peach industry, and some one wondered why it was progressing so slowly, although it has been ordered by the legislature. A mandamus was suggested by some of the lawyer members, which seemed to strike the club, or at least a part of the word did. It will be further pushed.

BARBER'S FINE NEW CLUB HOUSE.

(Continued From Page One.)

it be desirable later on to connect with the filtered water from the Southern Pines plant a short pipe line will make the connection. If any number of buildings should come as the influence of the club is felt ample water facilities are at hand, while light wires are convenient in the Carolina lines close by.

Mr. Barber owns the big share of the country that sweeps along the north side of the Midland farm section and the Knollwood possessions to the hill east of Mill creek. He is fortified so that he can carry out on his own land any desired scheme that may present itself to him, and it is to be supposed he has not bought the land to let it lie without regard for its prospects. That new club house is as prophetic of the future of the Sandhills as the Pine Needles for it points to the creation of homes and recreation centers on the part of private owners as definitely as Pine Needles tells of the expansion of the public facilities for caring for an increasing number of winter visitors.

GET UNIVERSAL WATER SYSTEM.

(Continued from page 1)

the American Water Works Association at their meeting at Durham a few days ago, C. O. Butler, superintendent of filtration at the Southern Pines plant, said that the color of the water has been affected less this fall than at any previous time, and that but slight trouble is anticipated after a little more vigorous flushing out is given. This will be done automatically and steadily when the new line is connected, as the greater circulation of the water in both mains will have a tendency to reach all parts of the system and to move swiftly from time to time any sediment that may come from corrosion or from insufficient coagulation in the settling basin.

It is predicted by those who keep an eye on things that it is only a question of time until the whole Sandhill resort section will be tied in together in their water supply. Pinehurst is steadily pushing out toward the Midland region, and Knollwood will go westward to join that development. Southern Pines is extending its lines down the Aberdeen road, and Aberdeen is coming up the hill. The prediction is that ultimately a bigger plant at a central point, as at the Southern Pines location, will be called on to deliver a great deal more water; and to the whole country around. The steady growth of the area within half a dozen miles of the present plant will not be served indefinitely with the facilities now scattered as they are.

MOORE COUNTY FARM NOTES

(Continued From Page One.)

your field which could be used to grow other crops and in addition be put to the extra trouble of working around these stumps with a hoe generally. Where stumps are left in a field it is impossible to use practically any kind of improved machinery. Pyrotol has also been a valuable aid in ditching and opening of drives. With the use of electric caps a ditch may be cut to practically any desired width and depth. Three sticks of pyrotol is considered a pound and is equivalent in strength

to 40 per cent dynamite. Co-operative Orders for Lime Still Going In.

If you intend liming your tobacco land next year now would be a very good time to get your order placed and get your lime home. As a general rule we have a little more time for hauling now than we do after breaking of land starts in the spring of the year.

This material costs us about \$6 delivered to practically any point in the county. This is put up in 100 pound paper bags which is a very convenient form for handling and is much cheaper in the end than loose lime, which costs only about \$1 per pound less.

In several cases farmers have reported good increases in tobacco where lime was used over tobacco which grew on land not limed. The quality in practically every case was also increased.

Lime is not a remedy for "club root," and should not be taken as such. It may stimulate the growth of the plant so that it may overcome the disease to a certain extent, but the only practical remedy for root knot is rotation of crops.

Where land has already been sown in small grain and you wish to apply lime it may be done a little later in the season by broadcasting the lime over the grain and harrowing it in with a weeder or a drag harrow. This will not materially injure the grain and still it covers the lime sufficiently to keep it in the soil.

For all the clovers and vetch a good application of lime will practically double the yield.

All in all it is one of the best and cheapest fertilizers we have and results will be noted on a piece of land for at least four years and sometimes even longer.

For tobacco on sandy soil you should have at least 1,000 pounds per acre in the drill or better still 2,000 pounds broadcast. This should be put in at least 90 days before the plants are set in the spring and if you can get it on the land earlier than that it is that much better.

Co-operative orders are being made up pretty often now. If you want a few tons get in touch with your neighbors and see what they want. In that way a car can soon be gotten up.

E. H. GARRISON, JR.,
County Agent.

HEMP.

Miss Flora McDonald spent the week end at her home in Carthage. Barney McLean and Dudley Ellerby spent the week end at their home in Rockingham.

Mrs. Stewart Evans, a member of the Elise faculty, returned home from a week's visit in Snow Hill.

Rev. R. C. Goodchild, the Methodist pastor of Hemp, is attending conference.

Friday night, November 11, the music department of Elise High School, gave a music recital, which was followed by a short play.

Mrs. Lynch spent the week end at the girls' dormitory with her daughters, Greva and Vera.

Rev. and Mrs. H. L. Davis and little son, of Newport, N. C., are visiting Mr. and Mrs. H. M. Davis.

Miss Helen Davis, of High Point, is spending a few days with her parents.

Mr. and Mrs. E. B. Bell are visiting Mrs. Bell's mother, Mrs. Martha Williams.

Rev. and Mrs. J. C. Cummings left for their home last week.

Rev. R. A. McLeod, of Elise church, spent Wednesday of last week in Raleigh.

Beaufort county farmers are getting a share of the cheap government explosive by ordering 18,300 pounds of pyrotol last week.

NOTICE.

The Board of Commissioners of the town of Vass, N. C., will receive bids at noon December 2nd, 1927, for \$35,000 Water Bonds of said town, dated December 1st, 1927, denomination \$1,000, bearing interest at the rate of six per cent per annum payable semi-annually, both principal and interest being payable at the Hanover National Bank in New York City, and maturing as follows: on December 1st in each year, \$1,000 in the years 1930 to 1950 and \$2,000 in the years 1951 to 1957. Bidders must present with their bids certified check for two per cent of the face value of said bonds to secure the town against any loss resulting from failure of the bidder to comply with the terms of this sale. Blank bonds and legal opinion will be furnished by the town. The right is reserved to reject any or all bids.

D. A. McLaughlin,
Town Clerk.

ADMINISTRATOR'S NOTICE.

Having qualified as administrator of the estate of J. C. Morgan, Jr., deceased, late of Moore county, North Carolina, this is to notify all persons holding claims against the said decedent to present them duly authenticated to the undersigned on or before the 10th day of November, 1928, or this notice will be pleaded in bar of their recovery. All persons indebted to said estate will please make immediate payment.

This November 10th, 1927
D. T. MORGAN,
Administrator of the estate of J. C. Morgan, Jr., Deceased.
W. R. Clegg, Attorney.
6t-Nov. 18.

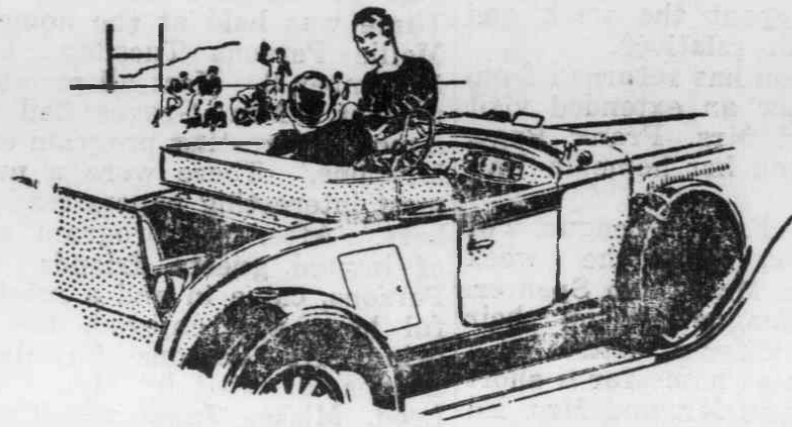

NOTICE OF SALE OF LAND UNDER DEED OF TRUST.

Under and by virtue of the power and authority conferred by a certain deed of trust, dated December 21, 1926, executed by Bonnie Belle Peach Orchards, Incorporated, W. C. Mudgett, President, attested by Ralph W. Page, Secretary, to Cale K. Burgess, Trustee of the North Carolina Agricultural Credit Corporation, which said deed of trust was duly recorded in Book 45, at page 488, in the office of the Register of Deeds for the County of Moore, North Carolina, default having been made in the payment of the indebtedness, secured by said deed of trust, the undersigned trustee will offer for sale and sell to the highest bidder for cash, at the Court House door in Carthage, Moore County, North Carolina, on Monday, November 21, 1927, at 12 o'clock noon, the following described real estate:

Beginning at a stake near the southern edge of the right of way of the Norfolk-Southern Railway just opposite the two mile post,—the same being the corner of S. E. Fouts' 50 acres known as the Pond Fifty, formerly known as the McNeill Fifty; runs thence with the right of way N. 65 40 W. 779 feet to the corner of the 17 acre Sand Pit Tract; thence with the line of it reversed S. 22 deg. 38 min. W. 783.6 feet to another corner of said 17 acres; thence with its other line reversed N. 69 W. 975 feet to the line of F. C. Page's Tract; thence as that line S. 27 deg. 45 min. W. 4938 feet to the line of 20.34 acres Fred C. Page purchased from the Marlboro Farm Company; thence with that line, and past its corner S. 63 deg. 45 min. E. 214 feet to the original corner of the Pond 426 acres; thence with that line N. 50 deg. 15 min. E. 4547 feet to the corner of Frank Page's 15 acres; thence with the line of it N. 16 deg. 45 min. East 1735 feet to the beginning, containing 153.64 acres, more or less.

This the 19th day of October, 1927.
CALE K. BURGESS,
Trustee.

A. Burton Breece, Attorney,
Raleigh, N. C. 5t—Nov. 18.

In Automobiles as in Football -- "All-American" is the Word!

On the All-American football team... the greatest talent American college fields produce. The finest performers in every phase of this great American game... And in the All-American Six... the outstanding automotive developments of the present day. Masterly coordination of ruggedness and flash... of beauty and comfort... of endurance and style. The highest type of materials and workmanship in every detail of the car... Power... drive... speed... spirit... a thrilling change of pace... stamina that welcomes the roughest grind. The qualities of America's gridiron stars... and of this brilliant American car... A car that is winning America with swift, unflinching strides. Come in. See it. Get behind the wheel. Learn the thrills that are offered in the Oakland All-American Six.

NEW LOW PRICES: 2-Door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075; 4-Door Sedan, \$1145; Cabriolet, \$1145; Landau Sedan, \$1265.
Pontiac Six, \$745 to \$925. All prices at factory. Delivered prices include minimum handling charges. Easy to pay on the Liberal General Motors Time Payment Plan.

"Electric Power!— A Consumer Owned Industry"

Says Haley Fiske
President of the Metropolitan Life Insurance Company

There can be no doubt that light and power distribution is a most important element in our life, in the community, in the neighborhood, in the household. The ownership of the electric light and power companies is now in the hands of more than 2,000,000 direct investors in public utility stocks, and indirectly, in the hands of millions more of bank depositors and holders of life insurance policies through their ownership of public utility bonds. This is people's ownership—under public regulation."*

SINCE Mr. Fiske's statement was made, the number of investors in electric power companies has grown to over three million.

It is estimated that during 1926, nearly four hundred thousand customers bought over three million shares in the electric power companies serving them. All told, over thirteen and a half million shares of stock have been purchased by the customers of these companies. These owners are found in every walk of life. Two companies alone report nearly fourteen thousand customer stockholders, representing 269 separate occupations.

The movement toward customer ownership of industry finds its largest expression in the electric power companies because of the

high sense of responsibility developed by these companies in their dealings with the public.

Operated under the American principle of individual initiative, and directed by a personnel of tested integrity and public-mindedness, these companies have so definitely identified themselves with the interest of the public, that the structure of America's prosperity and progress rests to a large degree upon their service.

America's unequalled level of comfort and prosperity, made possible through cheap, abundant power, developed under the American principle of individual initiative, is the best of reasons why that principle should be preserved and perpetuated.

*The complete text of Mr. Fiske's statement will be furnished upon request.
