73 of

America's leading

business concerns

have bought

27,605 Chevrolets

Prominent among the thousands of concerns using large fleets of Chevrolets are many of the leaders of American industry. In fact, 73 outstanding business firms have purchased a total of 27,605 Chevrolet cars and trucks.

The reason for this preference lies in the unexcelled economy of Chevrolet cars and trucks, as proved by official cost records. These records show that 20 miles to the gallon is a common occurrence among Chevrolet cars. That oil expense is extremely low. That Chevrolet

cars and trucks require only a minimum of service attention. That they give satisfactory low-cost service over exceptionally long periods of time.

Naturally, a car with such a fine record of economy represents an extremely wise investment for any buyer! Especially so, when you consider the many advantages that Chevrolet offers above and beyond economical operation. Come in and learn what these advantages are—what they mean in terms of style, comfort, safety, reliability and value.
