

Movie in Aberdeen To Explain Job Insurance

Official North Carolina Picture on Unemployment Insurance Here Monday

Aberdeen will have its premiere of "Your Job Insurance," the official North Carolina motion picture on Unemployment Compensation, at the Aberdeen Theatre for two days, starting Monday.

This special short subject, which was filmed in North Carolina recently, tells in rapid, dramatic style the story of how Unemployment Compensation benefits will be paid to those workers who qualify in North Carolina after the first of the year, according to Charles G. Powell, Chairman of the State Unemployment Compensation Division.

"Your Job Insurance" was produced for North Carolina by the Federal Social Security Board at the Pathe Studios in New York City. The dramatic narration is done by Andre Baruch, nationally known motion picture and radio commentator.

Opening with scenes illustrating the nation-wide scope of this movement, the film shows that Unemployment Compensation, as a major part of the Federal Social Security Act, was passed in 1935 by the greatest majority in the history of modern social legislation by the members of both political parties.

Scenes of the State Capitol, and of Governor Clyde R. Hoey conferring with Chairman Charles G. Powell are featured, as are shots of the State's leading industries.

This sequence precedes the major portion of the film which tells the story of Steve, a North Carolina worker who becomes unemployed. After receiving his lay-off slip he goes to the nearest State Employment Service office, where he registers for another job for unemployment compensation benefits.

The Employment Office helps Steve to look for work, but since no job is found by the end of the second-week waiting period, he becomes eligible for benefits at the end of the third week of unemployment. Then each week thereafter Steve receives this check in the mail.

Although under the North Carolina law Steve's check cannot be for more than \$15.00 or less than \$5.00, it helps buy groceries, pay rent, and provide for the necessities of life—thus stabilizing the entire community's buying power.

It was reported this week that the rumor that some of the present members of the Board of County Commissioners were not going to stand for re-election was unfounded. Not only will Wilbur Currie, the chairman, and his able cohorts of the board stand for renomination but at the moment there is no sign of any opposition for any of them.

NATIONAL DRIVE ON TO BOOM AUTOMOBILE SALES

A national drive to sweep the American automobile industry out of the current recession and stimulate American business generally was announced this week by Alvan Macauley, speaking for every American automobile manufacturer and the nation's 46,000 automobile dealers.

The campaign, to be known as "National Used Car Exchange Week" and scheduled for March 5 to 12, is an outgrowth of recent conferences at the White House between President Roosevelt and leaders of the automobile industry. Mr. Macauley said. The President has been advised of plans for the campaign, which is the first cooperative effort ever undertaken in which all American automobile manufacturers have taken part.

The campaign is timed at the outset of the spring selling season when both new and used cars usually begin to move in greatest volume. Mr. Macauley said. It is aimed primarily at stimulating the disposal of used car stocks now in dealer hands. Once this is accomplished, a substantial increase in car manufacturing schedules and employment of wage earners in the automobile factories is anticipated.
