#### DANCING CLASSES

Weekly dancing classes will begin at The Ark School, Southern Pines, this afternoon, Friday, at 4:00 o'clock. There will be classes in primary, elementary and advance dancing.

**Here's one worth going after!**

Coming at you, it looks like a million. Going away, it looks like good fortune you've missed.

A lot of fussy care went into the way it looks from the rear—you know, that's the angle from which it's oftenest seen.

Going or coming, it moves like a honey bee about its business. Better look quick if you really want to see it—one sudden "swo-o-o-sh!" and it's gone!

How about it—is this stunning 1939 Buick really as lively as it looks?

Maybe a bullet gets off faster. Maybe a rabbit can beat it on the jump or a sky-liner lead it from point to point.

But you'll never want a highway cruiser that answers quicker to the green light's "go"—or that with keener relish eats up the pleasure-packed miles.

That bonnet houses a full complement of eight cylinders, and Dynaflex cylinders at that. All four wheels dance on Buick Coil springing of stout spiraled steel; no quiver or shiver shakes the luxurious body in its flight.

You'll see the world—lots of it—for this sightly Buick now parades the passing panorama through windows with up to

**413 more square inches of outlook than before.**

Other things you'll like: A gearshift out of knee-way. Front wheels that "bank" the curves for you. Brakes that stop on a dime—and leave nine cents change.

In fine—we think you'll like all of it—from its looks to the way it lives up to them. Won't you try it out—and see?
