

EDUCATION WEEK TO BE OBSERVED HERE

(Continued from page one)
 A spiritual heritage, the most precious gift from our forefathers. A people's government conceived by heroic men determined to be free.
 A great people, over 132 million souls of many races and creeds.
 A vast wealth found in our natural resources from sea to sea.
 A hopeful future to leave to our children and to generations unborn.
 What is education for the common defense?
 It is universal, seeking to educate all the children and all the people.
 It is practical, helping prepare people to earn a good living.
 It is civic, preparing individuals to be wise and loyal citizens.
 It is spiritual, recognizing the eternal dignity of human personality.
 The superintendent, faculty and students of the Southern Pines Schools extend a special invitation to citizens of the community to visit the schools during American Education Week, and see in action "a system of universal public education which is the greatest common defense the American people have erected or can erect."

CORRESPONDENCE

NO. AMALGAMATION

Editor, The Pilot:
 Stop. Look. Listen. American crusaders continue, without rancor or bitterness realize that lethal threat living in this third term clamor that all parties amalgamate. This is where Germany at Hitler's first election sold out her soul alive. We minority patriots must resist stamped surrender of the free soul of America.
