YOUR WIFE

knows the answer to gift shopping problems

She's a wise, thrifty shopper every day so, of course she knows all the angles. That's the reason she planned far ahead of this Christmas to make her gifts electrical, and, confidentially, you'll find electrical things on her personal "want" list, too.

Unfortunately, because of the National Defense program, plans made several months ago may not have enough electrical appliances to go around. So, here's a suggestion—instead of that Electrical Gift you wanted to give but couldn't get, invest the funds in United States Savings Bonds and Stamps and when you put them in the Christmas stockings add a little note saying that this investment is intended for an electrical appliance when production returns to normal.

FOR DEFENSE BUY UNITED STATES SAVINGS BONDS AND STAMPS
 United States Savings Bonds and Stamps are available in various denominations at many stores, banks and post offices. They make ideal gifts for everyone.
