Red Cross Canteen Reports Activities

Mrs. H. W. Doub, Moore County Canteen chairman, handed an intensely interesting report of the activities of this corps to Mrs. Paul Dana, county chairman of Volunteer Special Services, at the monthly meeting of the services held in the committee room at Red Cross headquarters in Southern Pines.

July through February, thirty-two members of the Aberdeen Canteen gave 717 hours in time to serve 13,892 men and make 8,261 sandwiches, their present responsibilities including preparation of food and snack bar service at the U. S. O. in Aberdeen and making sandwiches for Camp Mackall Hospital festivities. Their special services include: assisting the U. S. O. in serving troop trains, serving hot coffee and sandwiches through the nights of the January maneuvers, making cookies and sandwiches for U. S. O. dances, filling bags for a Christmas party for 500 men, making cakes for a Christmas party at U. S. O. and sandwiches for the New Year's party for patients at Camp Mackall Hospital, and serving dinner to all girls who have given more than 50 hours working in the U. S. O.

In her report Mrs. Doub also mentioned the Southern Pines Canteen which in August served sandwiches and punch to 60 workers at Camp Mackall. Women of this corps, which is inactive at present, have joined the Grey Ladies serving at Camp Mackall Hospital. Here they find their training and experience useful as they help prepare and serve trays to patients in the wards. Mrs. Doub is assisted by Mrs. F. D. Farrell, vice-chairman. Their active corps will help staff the Aberdeen theatre during Red Cross Theatre Week when workers in uniform will sponsor a collection for the War Fund Drive.

The Aberdeen Corps is just one of the hundreds of Canteen Corps in the National American Red Cross, trained and equipped to undertake group feeding in time of local disaster, national emergency or war. In normal times they would also undertake such projects as gardening, canning and school lunches. Their special training includes a Standard Nutrition Course of 20 hours and a Canteen Course of the same under instructors with B. S. or B. A. degrees in Home Economics, majoring in food and nutrition and with a minimum of one year experience teaching in the first and the same degree with a major in dietetics or institutional management within four years prior to this class in the second course.

The Office of Civilian Defense and the National American Red Cross have an official agreement that Red Cross assume responsibilities in time of war and peace in feeding groups needing such service in epidemics, fires, floods, hurricanes or in cases resulting from sabotage or war—victims, fire fighters, air wardens and others engaged in protecting life and property. For this they are efficiently organized and trained to a uniformity of procedure in methods of food preparation and service that they may work speedily without confusion.

Their uniform is of cotton in Belgian blue with matching coil with Red Cross emblems on coil and pocket of dress. Resourceful, wise and efficient women with a will to serve in one of the most humble, yet most essential of the Red Cross Corps join this service. They are to be congratulated. They are welcome wherever they go to serve especially in time of war.

Plans for Theatre Week were completed at this meeting. Grey Ladies, Surgical Dressings Supervisors, Motor Corps, Nurse's Aides and Canteen Volunteers in uniform will staff the theatres in Pinehurst, Southern Pines, Carthage, Robbins and Aberdeen during the matinee and evening performances of the week of March 23 to take an offering for the War Fund Drive. Short reports were made by heads of each of these corps. Others attending the meeting included Mrs. G. H. Whittall, chairman of Grey Ladies; Mrs. Malcolm Kemp, assistant to Mrs. James Boyd, chairman of Nurse's Aides; and Mrs. John S. Zelle, chairman of Motor Corps.

PULPWOOD MEASUREMENT

An eight-man committee composed of pulp manufacturers, forestry experts and Department of Agriculture representatives met in Raleigh on March 17 to adopt a rule for the measurement of all pulpwood sold in this State, according to C. D. Baucom, State weights and measures superintendent.

Baucom's proposed method for converting logs into cubic feet of pulpwood was completed recently, and is being sent to all delegates attending the recent pulpwood conference held there.

ference held there.

In urging pulpwood producers to request the measurement sheet, Baucom said "It is now possible for any

farmer using this scale to take a simple yardstick or foot rule to his pile of pulpwood and tell the number of feet of wood he has for sale."

THE OLD JUDGE SAYS...

"That's really a great editorial you just read to us, Judge. Where did you say it appeared?"
"In 'The Stars and Stripes'... the newspaper of the U. S. Armed Forces in Europe. Kind of gives us folks back home something to think about, doesn't it, Bill?"
"It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"
"Glad to, Bill. It says, 'We can remember

days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before initiating further legislation on liquor control.'"
"Out of fairness to our boys over there fighting, Judge, how could we disobey such a wish?"
