## YEAR after YEAR

FROM the mountains to the Atlantic shore, North Carolina is a great state of great people. It is a state whose high level of civic consciousness has set the standard for a high level of business ethics.

In keeping with such a tradition the North Carolina Committee was formed seven years ago to maintain wholesome conditions in retail beer outlets.

The brewing industry's Self-Regulation program is designed not only to insure the sale of its product in keeping with public sentiment and with the high standards of the industry itself, but to protect beer's economic benefits to the public. Last year, in North Carolina, beer paid \$9,964,609 into the public treasuries.
