Our common objective in the campaign will be to bring home to each individual the paramount need for caution, particularly during this time of traffic crisis, and to enlist, not only our own members, but everyone who walks or drives in the 'Take it easy' movement. In officially launching the 'Take it easy' campaign this week in Washniton, American Automobile Association officials made public a letter from President Truman commending the program. He wrote that it is 'well designed to focus attention of the importance of the responsibility of the individual.'"
