to even the count, and went ahead in the fourth quarter on a long pass and lateral for a touchdown, making the score 12 to 6 as try for points failed.

Lexington kicked off, to Southern Pines, Blue receiving on the five and returning to the 35. Blue was almost shaken into the clear on the 35. After two running plays, Lexington took over on their 28 when Benson intercepted Blue's pass.

Taylor returned the kick to the Southern Pines 30, but Lexington couldn't make the distance and lost the ball on a fourth down incomplete forward pass. Then Lexington got their first break, recovering a Southern Pines fumble on the 17. Taylor made five in the middle, but Covington at the same spot failed to gain.

Second Quarter

Mattocks at left end picked up eight yards, but failed to gain on a second and third try. Maples kicked out beautifully, and, after a running play, Lexington was detected holding and penalized to their 25. Taylor gained back 10 yards at left end, but back to pass was thrown for a 10-yard loss by Arnette.

Covington back to kick got a bad pass from center and fumbled, Maples recovering for Southern Pines on the Lexington 22. Mattocks picked up five yards at right end, but lost five trying the left end. On an attempted reverse play, Sexton broke through to throw McCall for a 10-yard loss, and Lexington took over on their 32 after an incomplete forward pass.

Failing to make the distance Taylor kicked to Mattocks on the 10, and Mattocks returned to the 24. Straka's pass was intercepted by Newcomb who ran the ball back to the Southern Pines five where he was stopped by Arnette.

With the high school cheering section begging for their team to "hold 'em", Benson dove into the line for a yard. Covington then plowed three yards to the one-yard line but was stopped just short of a touchdown by Maples. Covington plunged again but was piled up by the entire Blue and White forward wall for no gain.

Coal Mine

(Continued from Page 1) open an unused coal mine in a month or two."

The State Department of Conservation and Development estimates that there are 46,000,000 tons of coal available in the Deep River field. It is believed that there is an ample supply of local labor to take care of the preliminary work to be done at the mine when the go-ahead order is received.

Several reuests for jobs from miners in western North Carolina and elsewhere have been received, some of whom formerly worked in the Deep River field. The workers are not members of the United Mine workers or any other union and, therefore, will not be affected by the current nationwide walkout.

Once the mine is readied for efficient operation following the several months of preparation necessary, production is expected to rise to a daily goal of 500 to 600 tons.

In addition to the Deep River coal field, North Carolina has two other possible sources of coal, the Dan River field in Stokes county and the Madison county field about three miles from Hot Springs. Both of them have extremely low grade coal which would be expensive to mine, it is said.
