"The demands on the hospital are greater than the present staff can handle, and the staff cannot be increased until we have more space, more beds, additional facilities," Dr. Monroe told the Kiwanis members. He listed as urgent the renovation of the children's ward, enlarged and improved laboratory space, and an increase of 75 in bed capacity.

## Smyth Is President Of C. of C.

Harry K. Smyth, a leading industrialist of this section, was elected president of the Southern Pines Chamber of Commerce by the new board of dirctors in regular session Tuesday night.

Mr. Smyth, vice-president of the Saco-Lowell Co., and general manager of the Saco-Lowell Shops, Sanford division, has lived in Southern Pines for about four years. He is a former president of the Sanford Chamber of Commerce, and served as a director for several years.

He accepted the office "with reluctance," he said, as his business interests lie mainly elsewhere, and he frequently has to go on long business trips, some of which take him as far as South America. The directors, however, insisted that he serve, on the basis that his experience in business and industry would be of benefit even on a part-time basis.
