

### Real Purpose Of State Fair Is To Educate People

Moore County residents were urged today to help make the 1955 N. C. State Fair, October 18 through 22, the most outstanding in the long history of the event. E. H. Garrison, county agent for the State College Extension Service, urged rural and urban residents alike "to participate in the 1955 State Fair in every way possible. The fair belongs to the people and is truly a wonderful experience for both young and old."

the real purpose of the State Fair is to educate. The wide variety of entertainment available on the fairgrounds is something extra. "A trip through the vast educational exhibit halls, the cattle, swine, sheep and horse barns can be an education in itself. And a few minutes of close observation during any of the livestock judging periods can actually put money into a farmer's pocket."

Last year the State Fair attracted competitive exhibitors from 89 of the state's 100 counties. This year the goal is for all 100 counties to be represented. Right now it looks as if this long-sought goal will be reached. Entries are being sent in at a record clip in all departments.

"It is hoped that several of the top winners at the State Fair this year will be from Moore County," said Mr. Garrison. "With more than \$60,000 in cash premiums being offered, plus the announced 25 per cent increase in premiums for blue ribbon exhibits at other fairs, the State Fair should break all existing records."

### Now Is The Time To Plant

#### BULBS

Let us supply you with FIRST QUALITY Paper White Narcissus for indoor forcing.

#### TULIPS HYACINTHS

Iris for outdoor planting to bloom in the spring.

#### PANSY PLANTS

Dry arrangements and dry materials for "do it yourself"

### Norwegian Pilots Visit USAF School

Capt. Fredrik F. Iversen and Capt. Jan H. Andersen of the Royal Norwegian Air Force are attending the Air-Ground Operations School specialist course. They entered the United States in January and have previously attended Language School at Lackland AFB, Texas, and Fighter Weapons School at Luke AFB, Ariz.

In an interview this week, the two Norwegian pilots said that their primary mission in the United States is to qualify as gunnery instructors. The supplementary training received at the Air-Ground School "will help us greatly in tackling the operational problems we will meet in our own Air Force," they said.

The visiting officers think it is important for people of different origins to get together and learn to know each other. They said that the quality of courses and the hospitality they have encountered in the United States are "encouraging."

This is their first visit to this country.

Condensation on spark plugs will ground the ignition and prevent firing. Wipe off plugs with a dry rag to remove ground.

### Chairman Butler To Address YDC At Chapel Hill

Paul M. Butler, chairman of the Democratic National Committee, will address the Young Democrats of North Carolina on Friday evening, November 11, in Chapel Hill.

The meeting is sponsored by the Young Democrats of the University of North Carolina, headed by W. E. Graham of Moore County. Reservations should be mailed to Mr. Graham at the Uni-

versity School of Law.

This is a return visit to North Carolina which Chairman Butler promised in Concord at the YDC rally on May 21. The visit comes at a time when Notre Dame journeys to Chapel Hill for a football game with Carolina. Butler is a native of South Bend, Ind., and a graduate of Notre Dame.

Dr. Herb L. Toms of Concord has been named as chairman for the event, and announces that Butler will speak at a dinner meeting in Lencir Hall on the UNC campus, and that approximately 225 persons can be admitted. Some members of the Senior

Democratic Party are expected to attend, but this program is staged primarily for the Young Democrats of the State.
