Letterlough complained that he was ill, had terrible arthritic pains and also headaches, and displayed a quantity of medicine he said he had to take.

Solicitor Brown queried, "Don't you think that in that case you are too ill to keep on driving?" to which the defendant answered, 'Well, but folks say it never seems to affect my driving."

Judge Rowe acquitted the old man on the drunken driving charge, and found him guilty of making an improper turn, continuing judgment on payment of costs. He took official note of the fact that Letterlough should not continue driving, for health rea- been pplapnned, including a hillsons.

## **WorkUnderwayOn Aberdeen Link Of** Four-Lane US 1

The three-lane highway south of Southern Pines is getting a face-lifting and, according to engineers with the State Highway Commission, a widening that will place it among the state's top traffic arteries.

Bulldozers are widening the present 33-foot three-lane highway to a modern four-lane highway that will encompass 72 feet.

When completed, some time in the late fall if weather permits, the new construction will stretch from South Street in Aberdeen to the intersection with the new Southern Pines thruway, a total of 2.46 miles.

T. E. Poindexter, division engineer, said that no houses or other buildings are being moved. He said the highway commission had obtained a 100-foot right-ofway for the new construction and most property owners along the highway knew of the acquisition and had kept it in mind.

When completed, the highway will consist of four lanes all the way from a point just south of Lakeview. beginning of the Southern Pines thruway, to the Richmond County line.
