Walter F. Hall, Hyannis, Mass., golf professional, has leased the Parhaven Golf Range on Midland Road from Leo Walper for the winter season.

He was New England Seniors Pro-Pro 4-ball champion of New England in 1953. He was formerly associated with Claude Harmon at the Winged Foot Golf Club, Mamaroneck, N. **Social Security Program Outlined At Rotary Meeting**

Nine out of every ten adults in this country are now covered by some provisions of the Social Security laws, members of the Southern Pines Rotary Club were told by Charles E. Burke, district manager, at their regular weekly meeting Friday.

Burke, who maintains the district offices in Fayetteville, said that more people are being covered all the time, particularly since new laws were passed by the recent Congress. "There are 8,300,000 people drawing Social Security benefits," he said, "including members of the armed forces, who were recently covered."

About the only big group left that is not covered, he pointed out, is the nation's doctors and other medical personnel. Under a new provision of the law women at 62 years of age may now be eligible for Social Security benefits, and men totally disabled any time after 50 may also be eligible.

Burke told the club that there are certain times in a person's life that she should make it a point to see his Social Security officer: when he reaches 65, when he reaches 72, and when "he reads any time in his newspaper that changes have been made in the law. And," he pointed out, "changes are constantly being made, so that it is wise to check often with the office."

Two guests were present at the meeting: Ed Speven of Maywood, New Jersey, and Jim Watts of Charlotte.

Danny Sheffield was also inducted into the club by the Rev. W. C. Timmons, pastor of the Church of Wide Fellowship.

**What put the magic in the new kind of FORD?**

Here's what put the magic in the new kind of FORD!

It started with the "Inner Ford." When Ford planned this baby, they thought in terms of a car through-and-through new.

The wheels got smaller. This Ford is so new that even the wheels have changed. Now smaller and broader, they help you take off quickly.

The wheelbase got longer . . . so now you can choose between a Ford that's over 16 ft. long—or one over 17 ft. long!

The frame got wider. Side rails bow out to give a more stable, safer riding platform . . . a lower, sleeker silhouette.

The ride got smoother. With new suspension, new springing front and rear, the ride this new Ford gives is the smoothest ever.

The handling got easier. Poised and balanced like a panther, this car has swept-back front suspension that works its magic when you need it most.

The power got hotter. There's a wide range of Silver Anniversary V-8's to fit every horsepower need\* . . . plus a new Mileage Maker Six.

"Six or V-8 the going is great!"

The roof got lower. And it's designed to let you make the easy entries and graceful exits you've always known.

The body got quieter. It's the strongest body built for a low-priced car. No car in Ford's field has such generous sound-proofing.

The room got bigger. There's head room to spare for a tycoon-type hat. There's real stretch-out leg room, too.

The lines got sweeter. They have the Touch of Tomorrow. Each graceful contour says, "Let's go!"

The style got smarter. With this new-look Ford you have a car that belongs anywhere! All Fairlane models look like hardtops.

The value got greater . . . the price is still Ford-low.
