**Annual Chamber Commerce Banquet Set November 28**

The annual banquet of the Chamber of Commerce will be held November 28, Earl Hubbard, chairman of the banquet committee, told members of the Chamber's Board of Directors Tuesday night of last week.

No definite place has been set for the annual meeting, Hubbard said, but three bids are being considered.

At the meeting the directors were told that the advertising

fund for town promotion has been matched (equal town and private business participation) and that planning for effective promotion will be started immediately.

Miss Katherine Wiley, a member of the board, told the members that there had been some misunderstanding about the Chamber's recommendations for Wednesday afternoon closings, particularly as regards the weeks between Thanksgiving and Christmas. The directors voted to conduct a poll among the various merchant members to determine whether the openings were desired or not.

Mrs. Oscar Holtzclaw, who represents the Chamber of Commerce in the US Highway 1 Association, said that the quota for Southern Pines had been reached.

Never before in history has anything built by man traveled so far in so short a time —by land or sea!

**CERTIFICATE OF PERFORMANCE**

The Undersecretary in the name of the United States Auto Club, Sports Commission

September 9 to 20, 1956, Bonneville Salt Flats, Utah  
1957 Ford  
Fairlane Club Victoria  
Drove 50,000 miles at 108.16 M.P.H. in 457.16 hours, 45 minutes, 45 seconds. This is the longest continuous run in the history of the United States Auto Club, Sports Commission. The car was driven by two men, one of whom is a woman.

**An announcement of decisive importance to anyone about to buy a new automobile**

The most exhaustive endurance test ever given an automobile, has just been completed by two stock '57 Fords—identical in every respect with cars now being offered by Ford Dealers.

Under the supervision of the United States Auto Club and the Federation Internationale de Automobile, each of these two '57 Fords traveled 50,000 miles in less than 20 days. Ford No. 1 averaged 108.16 mph for the entire run... Ford No. 2, over 107 mph. These averages include time for all pit stops.

In all, the '57 Ford smashed 458 national and international records.

This test was run on the Bonneville Salt Flats in Utah... it was the longest left turn in history.

A car, like a man, is known by its deeds, not words.

That is why, we at Ford, despite our confidence in our '57 cars, let their deeds of accomplishment speak for themselves.

Therefore, we engaged an independent engineering organization to test our '57 cars more thoroughly than any other cars have ever been tested before—in this country or abroad.

We provided them with '57 Fords—cars identical with those now offered by Ford Dealers. The rest we left up to them.

*Here is what they did:*  
They took these cars to the Salt Flats at Bonneville, Utah.

Here, twelve of the world's greatest drivers took over.

In relays they drove these cars night and day for a distance greater than twice around the world... a distance equal

to 5 years of normal driving.

Not in all history has a man-built machine traveled so far in so short a time—by land or sea!

But this was not a test of speed—but of endurance of the "Inner Ford." A trial to take the measure of Thunderbird Y-block V-8 power without qualification of any kind. A test of running gear—of brakes, of materials in body and chassis. Of steering and roadability, yes, and comfort, too!

A test, indeed, such as no other cars have ever undergone, let alone successfully concluded.

Surely they have told you, in decisive terms, that they are worth more when you buy... and when you sell!

Your Ford Dealer will gladly place at your disposal the new kind of Ford that means a new kind of value for your car-buying dollar—the greatest the world has ever seen.
