W. Southern Pines School News

Students at West Southern Pines were reminded recently that a positive attitude of "I can" must be adopted if they are to succeed in life.

Speaking to the group was Robert W. Boyd, guidance counselor at a Washington, D. C., high school. "Ask yourselves," he said, "just what am I going to do after graduating from school? Then get all the school has to offer

while you are here." Boyd is a graduate of the District of Columbia Teachers College and has done graduate work

at Catholic University. While here he was the guest of Mr. and Mrs. Joshua Ferguson at their home on Glover Street.

Time to Change to a modern Electric Range

Ah Spring . . . no better time to shuck the old and don the new! And what could be newer or more modern than the timing controls on a new electric range.

Cooking on a flamethrower belongs strictly to the hour-glass age. This spring, put springtime in your heart and in your kitchen the safe, clean way—cook electrically!

Chic and trim as a new Easter outfit, an electric range with an automatic timer can cook entire meals whether you're in the house,

the yard or downtown shopping. No need to worry because it's safe and clean as your electric light . . . no flames, no fumes, no soot, no smoke. Just set the timer and away you go!

For busy homemakers like yourself, this means more chances to enjoy a touch of spring fever these balmy days. Then again, if you already cook electrically, perhaps a new, colorful electric range would fit in nicely with your remodeling plans or trade-in ideas. Either way, see your electric dealer soon and make the change for the better this spring.

HOT WATER THE COOL, CLEAN WAY—Tubs and tubs of hot water are yours with a modern electric water heater. Cool, clean and safe, it can be installed anywhere...no fumes, no flames—no soot, no smoke!

LIVE BETTER...Electrically
