For the occasion her mother had baked and decorated in pink and white a lovely "My Fair Lady" cake. A doll and a miniature antique chair graced the top of the cake. Leading from the top of the cake to the edge of the large cake plate were steps done in pale yellow. The ten candles served as stair railings. Pink roses gave the effect of a rose garden. The drinks, ice cream and favors also carried out the pink and white motif.

Games were enjoyed by the guests, who were: Vicky Woodell, Fonda Fortner, Marsha Johnson, Player McPhaul, Ann Sullivan, Laura Adams, Lynn Carter and Ellen Romero.

## Country Kitchen

Long before the early settlers arrived in this country, the Indians had learned how to grind native corn into meal. But history does not record whether it was an Indian squaw or a colonial dame who first had the clever idea of converting corn meal mush into spoon bread by baking it with the addition of eggs and fat.

Spoon bread is usually attributed to the South, probably because Southerners, with their predilection for hot breads, make so much of it. But New Englanders have always been noted for their very excellent version of spoon bread, and in one of the earliest editions of a noted cookbook is included a recipe for the bread you "eat with a spoon."
