They hope the survey will stir community interest in the building of bomb shelters or in the building of a community shelter. A chapel program will be planned to demonstrate and tell of the dangers of radioactivity and fallout.

The Junior Class has started to plan on their first real money making project for the Junior-Senior Prom. This will be a powder-puff football game to be played Saturday night, October 14. This is a game in which the players are girls. The teams will be made up of girls elected from the four high school classes. The Seniors and the Juniors will play the Sophomores and the Freshmen in a rousing game of two-hand-touch - below-the-belt football.

even more interesting, the boys will not just watch but will also do their part. They will be the cheerleaders and the majorettes; then the powder-puff queen will be elected which will also be a boy, escorted by a handsome young girl. The lovely boy will wear the finest of silk formal.

At half-time the band will play and out will march the majorettes with their hairy legs and delicate forms. They will give a show which will indubitably thrill the spectators with their feats with the baton.

All money will go to the Junior Class for the big social event of the year, the Junior-Senior Prom.

Last Friday night after the game, the Student Council sponsored a dance. The new activity room worked like a charm to entertain the many couples present. For two hours the high school danced all the new ones. The older folks talk about our Twist and the Bristol-Stomp, but just remind them of their Big Apple and the Huck-A-Buck and they won't say a word.
