

### Richard Mitchell, Architect, Joins Hayes-Howell

Richard T. Mitchell, an architect who has worked in New York City for the past four years, has become associated with Hayes-Howell and Associates, local architectural firm headed by Thomas T. Hayes, Jr., and W. Calvin Howell.

A 1953 graduate of the School of Design at North Carolina State College, Mr. Mitchell is a Raleigh native, as is his wife, the former Janet Linker. They are living at 852 N. Leak St., in the Knollwood Apartments, and have two daughters—Nancy, 15 months old, and Susan, born last Friday. The Mitchells are Presbyterians and expect to become members of Brownson Memorial Church.

In New York City, Mr. Mitchell worked for two and a half years with the firm of Skidmore, Owings and Merrill and previously with the Edward D. Stone firm. After his graduation from college, he was with Leslie Boney, Wilmington architect, for four years.

Mr. Mitchell became acquainted with the Sandhills area after World War II when he was stationed at Fort Bragg, as a member of the 82nd Airborne Division, for a year and a half. He played golf some here then and expects to play again on Sandhills courses as much as possible.

During his college years, he dropped out one year to work. He worked with several architects and, in summer jobs while in college, with contractors, doing construction work.

Both Mr. Mitchell's parents and his wife's parents are living at Raleigh—Mr. and Mrs. T. B. Mitchell and Mr. and Mrs. C. E. Linker.

### Woman Jailed For One Day in Theft From Parked Car

Virginia Goodwin, about 30, an Indian woman of Raeford, Route 3, admitted Monday night to Deputy Sheriff J. A. Lawrence that she took a plaid jacket and \$3 belonging to a young waitress at the Clam Box Monday night.

She returned the jacket and money and, pleading guilty Wednesday in Southern Pines Recorder's Court, was sentenced to pay court costs and spend one day in jail for the theft.

Janice Thompson, 17, of Aberdeen, Route 1, reported she had served supper to a party of five Indian men and women in their car at the restaurant between Southern Pines and Aberdeen.

They were parked beside her own car, and she saw one of them with her jacket, cleaning out her billfold, which was in the pocket. The billfold was thrown to the ground as they drove off.

She got the car license number, and the State Highway Patrol and other officers sought the owner for several days. Monday night the owner of the car brought the Goodwin woman, the jacket and money to Lawrence's home, stating that he had not known of the theft as he was out of the car at the time it occurred.

While Miss Thompson had said it was a man she saw taking her belongings, the woman admitted to the theft and took the punishment.
