Hanner, 2:20-2:30.

Coin, Stamp Exhibits Scheduled at Laurinburg Sunday, Hamlet on Nov. 5

The new National Guard armory at Laurinburg will be the scene Sunday, October 29, of the first of two 1961 stamp and coin collectors' exhibits. A second exhibit will be held Sunday, November 5, in Hamlet at the public library.

For Laurinburg this will be the third annual exhibit of its kind. Sponsors are the Sandhills Stamp Collectors Club and the Carolinas Coin Club. Admission to the exhibit, from 2 until 5 p. m., will be free of charge.

Interested coin and stamp collectors from this area are invited to exhibit, whether or not they are club members.

Stamp displays planned include a wide range of interests in both foreign and United States stamps. To be featured are a complete collection of United Nations first day covers, a complete collection of U. S. Souvenir sheets, a collection of matched plate blocks, collections of Confederate stamps and memorabilia, and many other topical and special interest collections.

The coin collections will be judged in four divisions—best general, best set, best type, and best miscellaneous. Three prizes are possible in each division—juvenile, adult and collectors'.

Resuscitation Film Available for Showing

Sgt. Paul Hawks of the Sanford Army Recruiting Station said today he has a color motion picture demonstrating mouth-to-mouth resuscitation, which is available for showing to PTA groups, schools, churches, or civic organizations. This film is produced by the US Army. Sgt. Hawks said he would be glad to show this movie as he has a 16 MM projector also. It was shown to students of Chatham Central and Moncure High Schools last week.

The new methods of mouth-to-mouth resuscitation coverage in the film can be used on victims of drowning, electrical shock, and other accidents where the victim has quit breathing, Sgt. Hawks said.

SKIP DRIPS AND TRIPS

WITH A FLAMELESS ELECTRIC DRYER

OPERATING COST?
ONLY ABOUT \$1.50 A MONTH, BASED ON AVERAGE USAGE FOR A FAMILY OF FOUR.

This is the way to dry your clothes so early any morning. Or at night too for that matter because an electric dryer is completely automatic. When the job's done, it shuts itself off. You don't even have to be there.

While you attend the P.T.A. or do the family shopping, the electric dryer will gently tumble your clothes to a fresh, fluffy finish. You'll love the way everything feels so soft, smells so fresh, stays so clean. That's because the electric dryer, like your electric light, is flameless, fumeless, completely free of soot and smoke.

Want to end those wrestling matches with dripping clothes-lines? Then visit a nearby electric appliance dealer. Ask him about a flameless electric dryer—the shortest, cleanest clothes-line in the world.
