Belk Foundation Increases Number Of Scholarships

Walter H. DeLong, manager of Belk-Hensdale Co., Aberdeen, announced today that the Belk Foundation will award 24 college scholarships worth \$500 each during 1962. This is a substantial increase over last year's number. The awards will be made to high school graduates who expect to enter college as freshmen during the year.

The Belk Foundation was established in memory of Dr. John M. Belk and W. H. Belk, Sr. During the years since its beginning many churches, colleges hospitals and other institutions, as well as numerous individuals, have benefited from the Foundation.

"The scholarship program is another step in assisting others to a better opportunity in life," Mr. DeLong said.

Scholarship winners will be selected by a committee, on the basis of the applicant's scholarship rating, school and community activities, financial need, character and interests, and potentialities for success in college and adult life. Winners will be free to select their own college and course of study.

All local high school seniors who are interested in applying for one of the scholarships should see Mr. DeLong.

SAVE THE PIECES!

There's a patient at St. Joseph of the Pines Hospital who has this advice if you cut off part of your finger while chopping wood: save the pieces.

The patient, who remains anonymous, brought the portion of finger he had cut off in that manner to the emergency room with him and it was successfully grafted back on again.

SCHOOL LUNCHEES

Encouraged by increased federal contributions of foods and cash, more than 14 million children are eating nutritionally balanced school lunches. The children also are creating an ever-growing local market for farm foods, the U. S. Department of Agriculture reports. The 14 million is an increase of 5 per cent from the number of children in the school lunch program last year.
