PINEBLUFF NEWS

Former Resident Dies
Friends of Miss Fern Harris will be sorry to learn of her death on January 22. Miss Harris came to Pinebluff two years ago and was employed by Mirguet-Hylan Co. In the fall her condition caused her to leave her work and return to her home in Rochester, N. Y. for treatment and later for heart surgery. She was operated on January 18 at Strong Memorial Hospital in Rochester and passed away on January 22. While in Pinebluff Miss Harris made her home with Mrs. George Moger.

Funeral services were held February 1 at Rochester.

The sympathy of the people of Pinebluff go out to her brothers and sisters of Rochester, who are her survivors.

Committee Set Up to Recruit Donors of Blood
A group of residents from the Vass-Cameron-Lakeview area met recently in the home of Dr. R. J. Dougherty, to form a permanent recruitment committee for blood donors in that area.

Dr. Dougherty will remain general chairman; Mrs. Marilyn Gschwind and C. P. McMillan will be co-chairmen of the Vass community; Mrs. Loretta Nickens and Emory Brown of the Cameron community; and Mrs. Eloise Jackson of the Lakeview community.

The chairmen plan to divide these respective communities into small areas and workers will solicit for each. An intensive door-to-door campaign is planned.

A bloodmobile from the American Red Cross collection center at Charlotte is scheduled to visit Vass on April 17. A meeting of all chairmen and workers will be held April 5, at the Vass Community House, for final preparations for the drive, with a goal of at least 250 pints of blood to make up a large deficit.

Those attending the recent meeting were Mr. and Mrs. Ralph Nickens, Mr. and Mrs. Howard Gschwind, C. P. McMillan, Mrs. Eloise Jackson and Mrs. Margaret Beauchamp.

The two hospitals in Moore County obtain blood of all needed types from the Red Cross center at Charlotte, with the understanding that residents of Moore County, at periodic visits of a bloodmobile, will donate, over the course of a year, at least as much blood as that used by the hospitals.
