The 4 that goes around acting like a V-8...Tempest!

Used to be that people swore by V-8's and V-8's alone. And then along came Tempest's sponky 4 to steal their thunder. The hottest version* of this 4 (166 hp) puts out more horsepower than any other production 4 in the world. More torque, too. And every version, standard 110 hp on up, is smooth and silent and effortless. About the only thing Tempest doesn't share with the big boys is its appetite for gasoline and spare parts. Try a drive in a Tempest 4 soon, hear? You might as well save while you're swinging!
