**ELEMENTARY SCHOOL NEWS**

Editor's note: This column is an outgrowth of work in Language Arts at East Southern Pines Elementary School. Student reporters are gathering news from the classrooms and writers are preparing it for The Pilot, to be used by this newspaper as space permits.

**Science in First Grade**  
Mrs. Foushee's class has made a Spring Nature Mural. It is in four areas. The students bring nature items to place in the proper areas.

**Field Days**  
The first three grades have had their field days in the gymnasium with Coach Williams. They did lots of stunts, running and jumping. The teachers and coach were proud of the results.

**Work Coach Williams** has done with the Elementary School Physical Fitness Program has helped the students to work harder and exercise better.

**Second Grade Program**  
On April 17 Mrs. Megginson's second grade presented a chapel program on three subjects they have studied this year. Poems, songs and paintings were used to show the work that had been done on the Train, Universe and Community Helper units.

**Spring Bird Study**  
Many of the classes have been studying birds. Bird feeders and houses can be seen in several trees on the grounds. Special bird pudding was made by a second grade.

Mrs. McGoogan's class enjoyed a bird walk through Mrs. Bullens's garden in Knollwood. Some

of the mothers drove the students out in cars.

Miss Blue's fourth grade has been observing with interest a robin family outside their window. The students are learning many bird habits through this experience.

**Science News**  
Mrs. Robbins's second grade is working on a science project. Each one of them has a seed container planted and additional seeds to compare growth in different conditions. They are reading the life of Luther Burbank and studying some of the plants he made famous.

**Special Visitors**  
Mrs. J. W. Jenkins came this week and taught an art lesson on drawing trees, flowers and shrubs. On Friday they had a special treat when the grade parents came for lunch.

**School Visitor**  
Max Rush, manager of a dairy products company visited Mrs. McGoogan's second grade and Miss Peggy Blue's third grade recently. He made an interesting talk about milk and milk cleanliness. He also brought chocolate milk and cottage cheese which the students enjoyed. Visitors help classroom projects.

**Bakery Trip**  
Miss Blue's third grade took a trip to a bakery, after completing a bread study. Mr. Carver, the owner, showed all the machinery and explained how it worked. The class was surprised to see how much food the ovens bake at one time. The gifts of doughnuts and magazines were enjoyed by everyone.

**Fourth Grade Studies State**

Mrs. Jenkins's class is learning about North Carolina. They have studied about Sir Walter Raleigh and John White. They are learning the important industries and crops grown in the state and that the Tar Heel State is a "Variety Vacationland."

**Nature Walks**

Recently, Miss Rebecca Blue's fourth grade enjoyed several walks. They walked on the school grounds, observing insect holes in bark, trees and the young buds. They collected pine resin to make studies for their microscopes. Another day, they hiked to W. New Jersey Avenue to observe fallen trees. They were able to see the sapwood, rings of growth, and heartwood.

**Antiques Exhibit**

Miss Blue's class had an antique exhibit. The class wrote legends containing the information tracing the antiques. Many classes and teachers visited the room during the day.

**Fifth Grade Unit Work**

Mrs. Frye's fifth grade is working on a seed unit. They started with an individual seed and followed it through the different steps of growth, including plants, flowers, flower parts, and observed the work of each. Leaves and twigs will also be studied and their various uses will be explored. Soil conservation good practices in raising plants at home and on farms will also be discussed.

**Art Lessons and Displays**

Mrs. Frye's class had an interesting art lesson in abstract de-

signs. The results were individual and attractive. The cafeteria is nicely decorated with pictures drawn by the students in all grades. This project was encouraged by Mr. Moore, our principal. They make our lunch period more pleasant.

**ALL-TIME RECORD**  
Motorists in 1963 raced down the nation's highways to a new, all-time auto death record which for the first time exceeded 42,000 fatalities. This tragic toll topped the figure of nearly 40,000 persons killed in 1941—a record high which stood for twenty years—and even surpassed the new record of 40,500 deaths established in 1962.
