Red, white, & blue retirement plan

Sure, you'll have social security. Maybe an insurance plan, company pension and money in the bank to boot.

But buying U. S. Savings Bonds is also an excellent way to prepare for that day when you start taking it easy full time.

If you buy one a month at \$37.50 for 7 1/2 years before you retire, you'll have \$50.00 a month coming in for 7 1/2 years after. (That's just an example. You can adjust the dollars and the years to suit yourself.)

Something else to think about: Bonds can help make sure you'll have a future to retire in the first place. The money does a lot to strengthen Uncle Sam's hand in the free world.

Why not make it a habit to buy Bonds regularly where you bank, or on the Payroll Savings Plan where you work? See if you don't feel pretty good about it—now and later.

Quick facts about Series E Savings Bonds

- You get back \$4 for every \$3 at maturity (7 1/2 years)
- You pay no state or local tax and can defer the federal tax until the Bonds are cashed
- Your Bonds are replaced free if lost, destroyed or stolen
- You can get your money when you need it

Buy E Bonds for growth—H Bonds for current income

Keep freedom in your future with U. S. SAVINGS BONDS
