Kids Day Set Saturday At Pope AFB; No Sponsored Trip, But All Can Go

Youngsters from Fayetteville and other nearby areas will be special guests of Pope AFB Saturday (October 3) for the annual observance of Kiwanis Kids Day. The Sandhills Kiwanis Club of

Moore County, which in former years has sponsored participation by youngsters of this area in the Kids Day observance is not taking part officially. R. E. Ewing, club president, said that the club had staged its Kids Day here earlier this year when it sponsored a display of Army equipment.

However, children from this area are welcome, with their parents or in supervised groups. Local club sponsorship is not necessary to permit children to attend.

Starting at 10 a.m., an open house will be held which includes many special static displays of aircraft and equipment and personnel displays and demonstrations. The open house will continue until 1 p.m.

A grand tour of the flightline area will be provided by the 464th Transportation Sq., via miniature trains and coaches.

Expected to be the highlight of the annual event will be the Kiddie Jump Tower. Youngsters making a parachute jump from the tower will be given a "jump qualified" certificate.

A special feature will be two free-fall jumps and a group jump by members of Pope AFB's 3d Aerial Port Sq.

Garden Club To Employ Firm To Maintain Boxes

Store-front and other decorative window boxes in the business section will be maintained by a professional landscape firm, to be paid for by the Southern Pines Garden Club, it was decided by club members meeting for their first session of the fall season at the home of Mrs. Eugene Stevens, Monday.

In order to insure proper maintenance of the boxes, the club decided to employ the Roy L. Kelly Landscape Service to plant, spray, prune, fertilize and water the boxes, when needed.

Also discussed at the meeting was the club's project in landscaping the courtyard-patio at the remodeled town library, which is now going on.

The club has done much landscaping work around local schools and along the railroad. The Homes and Gardens Tour, conducted annually in the Sandhills, is its major fund-raising project.

Mrs. R. M. McMillan is club president.

GREATEST HERITAGE

Henry F. Atwood, outstanding American lawyer and authority on the Constitution wrote about it: "The greatest heritage that has fallen to any people in history is our Federal Constitution. Its making was the greatest human achievement since Creation, and it marked the greatest event in the history of the world, save only the birth of Christ."

Sunrise Theatre

All the captivating good humor and robust, lusty fun which have made Henry Fielding's celebrated novel of life, liberty and the pursuit of ladies in Somerset, England in the mellow 18th Century an enduring favorite, come to the screen in the United Artists-Lopert Eastmancolor release "Tom Jones" which opened Wednesday at the Sunrise Theatre.

Hailed by critic after critic as one of the finest pictures ever produced anywhere, the comedy stars England's famous Albert Finney as Tom, and supports him with such impressive players as Susannah York, Hugh Griffith, Edith Evans, Joan Greenwood, Dianne Cilento, George Devine and David Tomlinson.

"Tom Jones" was produced and directed by Tony Richardson with special music by John Addison.

Because it so largely retains its 18th century flavor despite the encroachments of "modernity," the green meadow country of Dorsetshire in south western England was selected as the "location" for the filming of "Tom Jones."

NEW JUNIOR ADMISSION PRICE, AGE 12-15, SET

The Sunrise Theatre begins new admission prices for young people, starting October 1, called "Junior Admission Prices" and offered to ages 12 through 15, it was announced today by Robert Dutton, manager.

The new prices will be in between the present children's admission price and the adult price. As a rule, the new junior ticket price will be 15-20 cents below the normal adult admission. This will be the first attempt to offer a special price to all young people of the 12 through 15 year age level. In the past, a student card was used by most young people and it proved most popular to the 12 through 15 year age group but failed to reach all young people in this category. Surveys have proven that the student card has become increasingly unpopular and will no longer be used. There will be no card of any kind needed for the young person.

The new admission prices will be used for a trial period of one year and if the junior admission price proves acceptable and popular with the young people, it will be continued as a regular policy after the one year trial period.

Gladstone, one of the greatest English Statesmen who ever lived said: "The American Constitution is the most wonderful work ever struck off at a given time by the brain and purpose of man."

ALSO CHARGED WITH DRUNKENNESS

Mother Tried For Neglect Of Child Left Uncared-For About Three Days

A two-year-old child lying in its own filth, covered with sores, too weak to move or to cry, was found last Wednesday in a house at Vass where it was believed to have been left alone for about three days.

Assistant Police Chief J. R. Grissom of Vass said he went to the one-room home of Beulah Little Ewing Daniels on information from the neighbors that the young Negro mother had left the boy there alone since Monday.

In Moore County Recorders Court Monday, where the mother was tried for public drunkenness and neglect of her child, Officer Grissom said, "It was the most pitiful thing I'd ever seen. The baby was lying in the middle of the floor, just filthy. It couldn't move at all. There was no food or milk in the house. There was not even a clean garment for the baby."

While he was there, he said, the mother came staggering to the house, drunk. He placed her under arrest and took the baby to a neighbor, to whom he gave some money to buy food and milk. He said when the neighbor tried to wash the child, it was so thirsty it grabbed the rag and tried to suck it.

Grissom notified the welfare authorities, and this week said he thought they were making some arrangements for the child.

In court, the mother made an attempt to testify but was nearly incoherent. Judge J. Vance Rowe placed her on 12 months' probation on condition she take care of her child, feed and support it, and if she has to leave the house, to arrange for someone else to care for it. Otherwise she goes to jail for 60 days.

GAVIN, MOORE

offices, from which they will work with the people and agencies of the region to help them realize their best industrial potential.

Moore came to Mid Pines from Pinehurst, where he had also addressed the N. C. Bottlers Association, in a speech sounding a conservative note. He blasted "big government" as not conducive to a true prosperity, noting that "the key to prosperity is productivity, and the key to productivity is an abiding determination to strengthen free enterprise."

Rep. H. P. (Pat) Taylor, Jr., of Wadesboro, who will probably be the next Speaker of the House, succeeding H. Clifton Blue of Aberdeen, was also a morning speaker on the Young Bankers program.

He described his decade of service in the General Assembly as an era of great change, noting that "the changes are not slowing down but on the contrary, are speeding up." In that period, he said, the State budget and revenues have practically doubled, the pay of school teachers has gone up almost 50 per cent, and many new programs have been instituted and old ones changed to meet today's new demands. As a business must be constantly seeking new ways to serve the people while using its resources wisely, so must the State government, he said. Bankers and other business and industrial leaders should "lead the way in study of new programs, helping to determine which should or should not be adopted, and help to send to the General Assembly men of vision and ability capable of meeting these needs."

Among other program items for the bankers was a talk by Nile F. Hunt, director of public instruction of the State Department of Public Instruction, reporting on education today, in the light of interest in the subject shown by the Young Bankers in the establishment of their College Foundation, Inc. The Foundation, created to make college education possible for deserving students through specially adapted loans, is a joint project of all North Carolina banks. At the end of its first year, according to a report made at the meeting, it contains some \$200,000 toward its million-dollar goal.

The convention opened Sunday with a reception and banquet, and adjourned after the Monday luncheon. Sam C. Harrison of the Citizens Bank & Trust Co. served as chairman of arrangements.

Activities for wives, many of whom accompanied their young banker husbands, and other aspects of the convention are reported in another story today.
