

SURVEY BEING MADE IN COUNTY

How Do Tobacco Varieties Compare?

By F. D. ALLEN
County Extension Chairman
A Tobacco Variety Performance survey is being conducted in Moore County to determine how various varieties compared in yield and value during 1964 on tobacco farms.

As many farmers as possible are being contacted so that the information gathered will represent a sizable portion of the tobacco grown in the county. Growers are being asked what total pounds and value he received from each variety he grew in 1964.

Cards are being sent to a representative group of growers in

the county and the growers who receive cards are urged to fill out the card accurately and return it to the County Extension Chairman's office. Everyone who receives a card should send it in regardless of whether his yield is low, medium or high. This is essential if the summary of the variety data is to represent the actual performance of a given variety in the county and state.

This information is also being accumulated by other counties, and a summary of the county, belt and State results will be available for growers to see as soon as it has been summarized.

REGISTRATION IN SCHOOLS

'Health Careers' Meeting For Young People Of Area Slated November 7

Health Careers For North Carolina District III will hold their Second Annual Health Careers Congress on Saturday, November 7, at the Ovens Auditorium in Charlotte, North Carolina. District III includes Moore and 13 other counties.

This Congress is for high school students who are interested in a health career, to encourage them in preparing themselves to help solve the critical personnel shortage which exists in the medical and allied professions.

Participation will be on a limited basis—4 students and 1 adult from each of the 137 high schools in District III. Local participation will be announced later.

The morning program will feature a keynote speaker, the Mercy Hospital School of Nursing Glee Club and a presentation of several classifications in the health field necessary to the recovery of a patient. Luncheon will be served in the Coliseum, adjacent to the Auditorium. Professional Associations and Volunteer Agencies will have educational exhibits on the Mezzanine of the Auditorium. Interpreters will be on hand to answer detailed questions.

After lunch, there will be tours to five facilities in Charlotte—

Charlotte Memorial Hospital, Charlotte Rehabilitation Hospital, Mercy Hospital, Presbyterian Hospital and the Wesley Nursing Center.

Guidance Counselors of the high schools have been sent registration sheets for the Congress and Pre-registration will close on October 16.

The Congress will inform some 600 young people of the opportunities for rewarding service offered by health careers, to help them plan such careers and to be of assistance to counselors and advisors of these young people in their work in this area.

Last year some 8:50 adults and students from 13 counties attended the first Health Careers Congress held by District III on October 26, 1963, at the Ovens Auditorium.

Health Careers For North Carolina is a program of the North Carolina Hospital Education and Research Foundation, Inc., which is supported by more than 120 hospitals, 28 hospital auxiliaries, the North Carolina Medical Society and League for Nursing and several corporations and foundations.

Miss LoRayne Dingness, Coordinator for District III is located in The Duke Endowment at 1500 North Carolina National Bank Building, Charlotte.

CARD OF THANKS

We wish to acknowledge with grateful thanks the kindness shown our husband and father, Samuel Turner Fields, during his illness and upon his death, by his many friends and relatives, and by the nurses and doctors at Moore Memorial Hospital. Mrs. S. T. Fields and Family

when the weather gets really cold

Oil Heat has the answers

other systems have a lot to learn

It isn't unusual for our temperature here in North Carolina to fall below 20 degrees. And when it does you want to be ready for it. That's when oil heat really does the job. So often, those other systems simply can't put out enough additional heat to keep you comfortable during severe cold snaps. But no matter how far the temperature drops, oil heat is ready for the increased demands made on it... ready to keep your family cozy warm. And at far less cost, too.

OIL HEAT—ALWAYS THERE WHEN YOU NEED IT MOST.
