He has recently been promoted to a very responsible position at Galveston, Texas.

Miss Lelia Parker, who has been here several days as the guest of Miss Flossie Abell, leaves to-day. After spending a few days with relatives and friends in Wilson's Mills and Durham she will return to her home in Asheville.

The period for vaccination expires to-morrow evening. If you are a resident of Smithfield and have not been successfully vaccinated since January 1, 1898, you would do well to see your physician and have the matter attended to.

We are in receipt of a handsome invitation from the principal of Buie's Creek Academy, of Harnett county. The commencement sermon will be preached by Dr. W. C. Tyree, of Durham, on Sunday, May 19th. The contests in the literary societies will be held Wednesday evening and Thursday afternoon. The corner stone of the new building will be laid Thursday afternoon at 3:30 o'clock, May 23. The annual address will be delivered by Governor Aycock, at noon Thursday, May 23rd.

The town authorities have passed an ordinance for compulsory vaccination of all persons who have not been successfully vaccinated since January 1, 1898. This has been done to prevent the spread of that loathsome disease, smallpox. It is the duty of the residents of this town to be vaccinated at once and thus aid the physicians and town authorities in stamping out the disease. It will save all trouble and expense as all who refuse to be vaccinated by to-morrow evening are subject to a fine of \$5.00 for each day they refuse.

The Meeting at the Baptist Church.

A meeting has been in progress at the Baptist church since Sunday night. The pastor is being assisted by Rev. C. A. Jenkins, pastor of the First Baptist Church at Goldsboro, who arrived Monday. Mr. Jenkins has preached very able, instructive and entertaining sermons at each service. The following have been his subjects:

Monday night—The Great Question.
Tuesday night—Temptations.
Wednesday night—Christ and His Love for Man.
Thursday night—Second Coming of Christ.

The sermon last night was a most powerful and impressive one and interest was manifested by several present.

To-night Mr. Jenkins will preach on The Judgment.

As Rev. Mr. Jenkins will have to be in Goldsboro Sunday, there will be no services in the Baptist church here. He will return Monday and the meeting will perhaps continue through the week.

Large congregations attend each service.

Board of County Commissioners.

The Board of County Commissioners met Monday in regular session, with all members present.

In addition to the allowing of accounts and the usual routine of business the following proceedings were had:

Joseph Lee, Rufus Sanders, J. H. Lassiter, T. D. Snead, Jr., and Walter Hines, were appointed to lay out and establish the new road leading from Junius Lassiter's to Bentonville road near T. D. Snead's, crossing Hannah's Creek at Sanders Bridge. The road is to be laid out and established free of any cost to the county, except the building of the bridge.

It was ordered that the County Superintendent of Health request all resident physicians to report any outbreak of typhoid fever in the county and send a sample of the drinking water to the State Chemist for analysis.

Carolina won the first game from the University of Maryland Thursday in baseball by a score of 19 to 7.

Smallpox in Smithfield.

Last Friday a case of smallpox was discovered in Smithfield. Dr. Wharton, County Superintendent of Health, reported it at once to the Town authorities. The Mayor called the Town Commissioners together and compulsory vaccination was ordered. The smallpox patient was isolated and a guard placed around the building. Every precaution to prevent the spreading of the disease has been taken. Dr. Josh Tayloe, the State specialist came here Tuesday to examine the case and pronounced it a genuine case of smallpox. He praised the physicians and town authorities for their promptness in dealing with the case and assured our people that they need have no fear if they would only lend their assistance to the authorities.

Trade is going on as usual and no one need keep away from Smithfield on account of smallpox. Everything has been done that can be done and little fear of the disease spreading is entertained by our physicians, as a large per cent. of the town's population was vaccinated last year. By to-morrow night almost every person in the town will have been vaccinated.

The negro is getting along nicely and will soon be well.
