Crops were badly washed Tuesday night.

A saw mill, cotton gin and grist mill are in course of erection here by Mr. G. F. Uzzle.

We have had many men here lately investigating, with a view to putting up iron bridges where the wooden ones were before the flood. This is a move in the right direction. It should be pushed.

Sunday night about 8 o'clock a cyclone passed near here, completely demolishing one house and bursting trees into splinters. Its path was narrow and it seemed that it struck only certain spots. Yesterday evening, (June 25th) we had another storm. The electrical display was grand and frightful. The phone and line for many yards were rendered useless by a single flash. The downpour of rain, together with the wind, damaged the crops badly.

Joe Massengill was in town since our last report, and to all appearances bore signs of a bloody conflict, in explanation of which he said he had about exterminated the negroes around Angier, and that in the process of doing so he had suffered slight flesh wounds. His story as vouched for by a companion of his would rank with those of frontiersmen in the early days of our republic, in startling experiences and hairbreadth escapes. Those whose hair stood on end while they listened to him felt, a sense of relaxation next day when it was learned that his only assaults had been upon corn juice, a goodly quantity of which he had succeeded in putting out of sight, and that accidents brought about his blood wounds.

Dr. R. J. Noble went to Wilmington last Friday evening to see the little son of his brother, Prof. M. C. S. Noble. We are glad to hear that he is better.

Should the A. C. L. change the schedules of their trains for Norfolk and Wilmington we would then have the best schedules of any place in eastern Carolina. Just think, four regular passenger trains each way for Raleigh and Goldsboro. We do not see how they could be improved on. The early morning train brings the Raleigh papers; we read them before breakfast. Twenty-five years ago if a man had business in Raleigh he had to leave here at 10 o'clock at night and get back at 4 o'clock the next night. Thirty hours to go to Raleigh and back. Now we can go four times a day. We hope the train will pay them so it will be kept on. It seems strange that the A. C. L. does not put on a train between Fayetteville and Wilson to connect with their train from Goldsboro to Norfolk. It looks like it would pay.

We are still clubbing THE HERALD and the New York Thrice-a-week World for \$1.65 cash in advance.
