FOR RENT.

I have on the Watson place several good two-horse crops for rent. These crops have good houses 4 or 5 rooms in each, and portions of the crops are "lying out" this year or sown in peas. One of the houses is the one now occupied by Mr. Ashley Beasley, and a large orchard and vineyard goes with it. This house will be repaired, painted and put in good order. Tobacco barns can be furnished if desired with any crop. The lands and houses will be shown to any one by Mr. Atlas Johnson living on the place.
I can furnish good houses and good lands, with the use of a large pasture, but I cannot furnish stock or supplies.

The growth of the University College of Medicine of Richmond, Va., has been remarkable—like-wise its success. Not perfection, but superiority of teaching methods (eminently personal and practical) is claimed. The official records of State, Army, Navy and Marine Examining Boards strongly emphasize the fact—none higher. Medicine, Dentistry and Pharmacy are taught by fifty-nine teachers.
