**TRUTH TELLS**

And the TRUTH Is Told—

In Our Advertisements

By HOLLAND.

**M**ERCHANTS have learn-ed that the Truth Tells when the Truth is Told. Hence they are scrupulous that their advertisements are accurate. Back of every ad-vertisement, back of every statement made to attract custom, is the reputation of the merchant, his hope of continued success.

Deception may be profitable for a time, but deception can-not be permanent, and the profit based on deception is necessarily brief. Truth is the more effective as it is of longer duration. Falsehood loses its effectiveness as soon as it is discovered.

The merchants who adver-tise in this paper are honor-able men, and this would make them truthful. But above all they are good busi-ness men, and they know that **TO BE SUCCESSFUL THEY MUST BE TRUTHFUL.**

Read the advertisements and profit by them. You can rely absolutely on the state-ments made in the advertis-ing columns.

**IT PAYS TO SAVE**

Employers, as a rule, are more favorably impressed by the man who Saves. They admire the determina-tion of the youth who builds up a Savings Account when his salary is small. Other things being equal he is the one most likely to win promotion.

The man who shows his ability to manage his in-come instead of allowing his income to manage him, is the one most apt to show profits instead of losses in any executive position.

Therefore--The problem of a young man's future prosperity may be solved through a Savings Account with this Bank.
