Achy Joints Give Warning

A creaky joint often predicts rain. It may also mean that the kidneys are not filtering the poisonous uric acid from the blood. Bad backs, rheumatic pains, sore, aching joints, headaches, dizziness, and urinary disorders are all effects of weak kidneys and if nothing is done, there's danger of more serious trouble. Use Doan's Kidney Pills, the best recommended kidney remedy.

A Smithfield Case

J. G. Hamilton, o carpenter, Smithfield, says: "Trouble with my kidneys was caused by heavy lifting and straining while working at my trade. I had a dull pain across my back and suffered from headaches and dizzy spells. My kidneys acted irregularly.

Friends recommended Doan's Kidney Pills to me and I got some at D. H. Creech's Drug Store. They relieved all symptoms of kidney trouble."
