

# VINOL MAKES GOOD BLOOD

## Positive—Convincing Proof

Many so-called remedies for anaemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain. The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Ammonium Citrate, Lime and Soda Glycero-phosphates, Cascarin.

Any doctor will tell you that the ingredients of Vinol, as named above, will enrich the blood and banish anaemia and create strength. When the blood is pure and rich and red, the body is strong and robust.

You can prove this at our expense because your money will be returned if Vinol does not improve your health.

## INCREASE IN THE WHEAT CROP.

Wheat Production for 1917 In Ten Countries, Including United States, Given As 1,665,489,000 Bushels.

A cablegram to the Bureau of Crop Estimates, United States Department of Agriculture, from the International Institute of Agriculture, Rome, Italy, received September 24, gives the 1917 production of wheat in Algeria as 29,715,000 bushels, or 101.9 per cent of the 1916 crop, and 945 per cent of a five-year average 1911-1915; the 1917 production of barley in Algeria as 33,208,000 bushels, or 98.3 per cent of the 1916 crop, and 85 per cent of a five-year average 1911-1915. The 1917 production of oats in Scotland is given as 49,528,000 bushels; in Ireland as 93,244,000 bushels; and in Algeria as 18,946,000 bushels, or 144.2 per cent of the 1916 crop.

The 1917 production of wheat in Spain, France, Scotland, Ireland, Switzerland, Canada, United States, India, Japan, and Algeria is given as 1,665,489,000 bushels, or 103.3 per cent of the 1916 crop, and 88.6 per cent of a five-year average 1911-1915.

The 1917 production of rye in Spain, Ireland, Switzerland, Canada, and United States is given as 89,950,000 bushels, or 110.7 per cent of the 1916 crop, and 126.8 per cent of a five-year average 1911-1915.

The 1917 production of barley in Spain, Ireland, Scotland, Switzerland, Canada, United States, Japan, and Algeria is given as 464,289,000 bushels, or 102.4 per cent of the 1916 crop, and 98.4 per cent of a five-year average 1911-1915.

The 1917 production of oats in Spain, Switzerland, Canada, and United States is given as 1,995,504,000 bushels, or 119.9 per cent of the 1916 crop, and 118.1 per cent of five-year average 1911-1915.

The 1917 production of corn in Spain, Switzerland, and United States is given as 3,273,996,000 bushels, or 125.3 per cent of the 1916 crop, and 117.7 per cent of a five-year average 1911-1915.—Government Bulletin.

**BOSCHEE'S GERMAN SYRUP.**

Why use ordinary cough remedies, when Boschee's German Syrup has been used so successfully for fifty years in all parts of the United States for coughs, bronchitis, colds settled in the throat, especially lung troubles. It gives the patient a good night's rest, free from coughing, with easy expectoration in the morning, gives nature a chance to soothe the inflamed parts, throw off the disease, helping the patient to regain his health. 25 and 75 cent bottles. Sold by Creech Drug Co.—Adv.

**MISS ALMA MARION HAS RETURNED** and is now ready to make your Fall and Winter Dress. Call on her at Woodall's.

Pertinent questions on health, hygiene and sanitation of general interest to our readers will be answered in these columns by mail if addressed to this office or to the State Board of Health at Raleigh and accompanied by a stamped, addressed envelope. No diagnosis or treatment of individual diseases will be attempted.

## Lockjaw and How to Prevent It

**T**HE cause of lockjaw, or tetanus, as doctors call it, is a germ which naturally inhabits the intestine of horses, cows, sheep and other animals. This germ pollutes the ground wherever animals run, and in the summer time it may survive in the manure and dirt for a long period. Therefore a wound sustained on the roadway, about the barn or barnyard or in

**A GOOD CHANCE FOR LOCKJAW.**  
A slight wound infected with manure is likely to cause lockjaw. Safety First.

The garden is more liable to admit the germ to the blood.

Every one knows that when we vaccinate we endeavor to scratch the skin without causing actual bleeding, because bleeding washes out the virus and prevents a "take." Well, the same holds true in a certain measure in lockjaw infection or other kinds of blood poisoning. A slight abrasion, scratch, puncture or cut that bleeds little or none at all is more likely to be followed by lockjaw than a freely bleeding, open wound.

Perhaps if every slight wound were at once antiseptically treated by applying tincture of iodine thoroughly or by having the doctor cauterize it with stronger germicides no lockjaw or other blood poisoning could occur. But if you neglect the trifling injury for several hours there is always a certain chance of such infection.

Lockjaw is so named because one of the earliest symptoms is stiffness about the throat and jaw, a sensation like a "sore throat" coming on. This may be felt from a few days to two or three weeks after a slight injury. Besides, the victim is very nervous, twitchy and jumps when the least bit startled. As the attack goes on stiffness of the muscles of the body everywhere will be felt, with jerky twitchings and finally severe convulsions.

The safest treatment of all trifling wounds in warm weather is immediate antiseptic or cauterizing applications by a doctor and then a hypodermic injection of lockjaw antitoxin. Probably no case of lockjaw has ever occurred

after this antitoxin has been administered at the time of the accident.

A wound in which lockjaw infection is present may appear to be healing perfectly. Sometimes, however, there are drawing or shooting sensations in or near the wound, or a feeling of tension or fatigue annoys the victim for days before the onset of more serious trouble.

In a case of deep puncture or stab wound or a wound in which the tissues are much lacerated and crushed or one in which foreign matter, such as powder, clinders, dirt or particles of clothing, is imbedded it is always advisable to have the wound laid open and thoroughly cleaned out by a doctor at the earliest possible moment, as such injuries offer ideal conditions for the development of lockjaw infection.

## QUESTIONS AND ANSWERS.

**A Test That Does Not Signify.**  
If one placed a bottle of urine on a shelf and let it stand for twenty-four hours, does the appearance of a sediment indicate kidney trouble?

**Answer.**—No. Sediment would naturally settle in a fairly warm place, even if the individual is perfectly well. That idea is one of the tricks by which purveyors of worthless kidney medicines persuade credulous folk to buy the stuff.

## Tonsillitis Is Catching.

**Is acute tonsillitis catching?**

**Answer.**—Every simple "cold," so called, and every acute sore throat is catching. The germs which may produce a "bad cold" in one person produce a severe attack of tonsillitis in the next victim or an attack of pneumonia in some one else. If all alleged common "colds" and sore throats were dealt with as carefully as diphtheria is dealt with by intelligent people nowadays this disease would become as rare as diphtheria now is.

## Preparedness Against Typhoid.

I am planning to spend a month in a place where there has been considerable typhoid fever. What precautions can I take to avoid the fever?

**Answer.**—Present yourself to the family doctor a month before you go away and have him administer the prophylactic (vaccine) treatment, which will be your best protection against infection in any circumstances.

## The Dose of Antitoxin.

Are 20,000 units of antitoxin an overdose for a moderate case of diphtheria in a boy eleven years old?

**Answer.**—Often at least 30,000 units would be necessary in order to neutralize 30,000 units of diphtheria poison in a little patient. The diphtheria germs work night and day to kill the boy. The antitoxin ought to be given in too small doses, never too large doses.

## Beef, Iron and Wine Versus Milk.

Is beef, iron and wine a good thing to build up the blood of a person who is run down and weak?

**Answer.**—You could put about all the beef and iron in the bottle in your eye without irritating the eye much. It is present chiefly on the label. As for the wine, after you have extracted the black from the wine—the alcohol—there is darned little left in it for your blood. A pint of milk or a sandwich or an apple or a dish of hog and hominy will give the blood more building material than many bottles of beef, iron and wine.

## APPLICATION FOR PARDON OF

Application will be made to the Governor of North Carolina for the pardon of Everett Eason, convicted at the February term of Superior Court of Johnston County for manslaughter and sentenced to the penitentiary for a term of three years. All persons who oppose the granting of said pardon are invited to forward their protest to the Governor without delay.

ROSSIE EASON.  
This the 20th day of Sept., 1917.

## "SELMA'S DOLLAR DAY" THURSDAY, October 11th.

## Doctor Says Nuxated Iron Will Increase Strength of Delicate People 100% in Ten Days

In many instances—Persons have suffered untold agony for years doctoring for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue, and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind. As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat; some are so weak they can hardly walk; some think they have dyspepsia, kidney or liver trouble; some can't sleep at night, others are sleepy and tired all day; some fussy and irritable; some skinny and bloodless, but all lack physical power and endurance." In such cases, it is worse than foolishness to take stimulating medicines or narcotic drugs, which only whip up your fagging vitality, powers for the moment, maybe at the expense of your life later on. No matter what any one tells you, if you are not strong and well you owe it to yourself to make the following test: See

how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see for yourself how much you have gained. I have seen dozens of nervous, run-down people who were killing all the time double, and even triple, their strength and endurance and entirely get rid of their symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form, and this, after they had in some cases been doctoring for months without obtaining any benefit. You can talk as you please about all the wonders wrought by new remedies, but when you come down to hard facts there is nothing like good old iron to put color in your cheeks and good sound, healthy flesh on your bones. It is also a great nerve and stomach strengthener and the best blood builder in the world. The only trouble with the old forms of inorganic iron, like tincture of iron, iron acetate, etc., often ruined people's teeth, upset their stomachs and were not assimilated, and for these reasons they are frequently more harmful than good. But with the discovery of the newer forms of organic iron all this has been overcome. Nuxated Iron, for example, is pleasant to take, does not injure the teeth and is almost immediately beneficial.

NOTE—The manufacturers of Nuxated Iron have such unbounded confidence in its potency that they authorize the announcement that they will forfeit \$100.00 to any reliable institution if they cannot take any man or woman under sixty who lacks iron and whose strength is 50 per cent, or over in four weeks' time, provided they have no serious organic trouble. Also they will refund your money if you do not feel at least double your strength in ten days' time. It is dispensed in this city by all good druggists.

HOOD BROS., Smithfield, N. C.

## Teachers' Examination.

The regular teachers' examination will be held in Smithfield, October 9th and 10th. All who wish to take this examination are requested to be here by nine o'clock. This will be the last examination for this year.

W. G. WILSON, Chairman.  
L. T. ROYALL, Secretary.

## NOTICE OF SUMMONS.

North Carolina, Johnston County, Selma, Township.

W. H. Etheredge  
vs.  
V. P. Brown.

The defendant above named will take notice that a summons in the above named action was issued against said Defendant on the 10th day of July, by C. A. Corbett, a Justice of the Peace of Johnston County, North Carolina, for the sum of Eighteen Dollars (\$18.00) due said Plaintiff by account which summons is returnable before C. A. Corbett, the above named Justice of the Peace, at his office at Selma, N. C., in said County and in said township on the 15th day of October, 1917. The Defendant will also take notice that a warrant of attachment was issued on the same day against the property. This the 15th day of Sept., 1917.  
C. A. CORBETT,  
Justice of the Peace.

## LAND IN SELMA FOR SALE.

Under the powers contained in a certain mortgage deed dated July 19, 1911, to J. A. Spiers and duly transferred to the undersigned, the conditions of said mortgage having been broken, the undersigned will on the 27th day of October, 1917, at the Court House door, in the town of Smithfield, offer for sale to the highest bidder for cash, at 12 o'clock M., the following described property: Beginning at the center of Block No. 17 in the plan of the town of Selma and also at the corner of Thos. A. Lasaine's lot, runs thence Northerly with Lasaine's line 150 feet to Noble Street; thence Westerly with Noble Street 75 feet to a stake; thence Southerly and parallel with the Lasaine lot 150 feet to a stake; thence Easterly at right angles 75 feet to the point of beginning it being the eastern half of Lot No. 70 in said block and that is that same block of land sold by J. A. Spiers and wife this day to Walter Adams, the above indebtedness being the purchase money in part therefor.  
J. A. SPIERS,  
W. E. SMITH, Transferee.  
Sept. 22, 1917.  
W. W. COLE,  
Attorney.

## NOTICE.

North Carolina, Johnston County. Under and by virtue of the powers contained in a mortgage deed given to the undersigned by A. C. Carter and wife, Ruth Carter, the undersigned will sell at public auction for cash at the Court House door in the town of Smithfield at 12 o'clock M., to the highest bidder, on Saturday, October 27, 1917, the following described tract of land:

Beginning at a stake, corner of Lot No. 6, on Chestnut Street and runs with Lot No. 6 N. 2 1/2 degrees E. 150 feet to a stake; thence 87 1/2 degrees W. 100 feet to a stake, corner of Lot No. 3; thence with Lot No. 3, 82 1/2 degrees W. 150 feet to a stake, corner of Lots Nos. 3, 7, 4; thence with Chestnut Street S. 87 1/2 degrees E. 100 feet to the beginning.

The above described piece or parcel of land being Lots Nos. 4 and 5 of the land surveyed for R. J. Noble, by J. I. Parker.  
This September 21st, 1917.  
J. E. PARKER,  
Mortgagee.

## J. M. BEATY

Smithfield, N. C.

## Through Sleepers To ATLANTA And ASHEVILLE

Commencing Sunday, July 8th, the Atlantic Coast Line will inaugurate a through sleeping car line between Wilmington and Asheville, via Florence, Sumter and Columbia, in connection with the Southern Railway System, upon the following daily schedule:

LV. Wilmington..... 3:45 P. M.  
AR. Columbia..... 10:50 P. M.  
LV. Columbia..... 11:50 P. M.  
AR. Spartanburg..... 3:20 A. M.  
AR. Tryon..... 4:50 A. M.  
AR. Saluda..... 5:15 A. M.  
AR. Flat Rock..... 5:35 A. M.  
AR. Hendersonville 5:50 A. M.  
AR. Asheville..... 7:00 A. M.

Returning: leave Asheville 4:10 P. M., arrive Florence 8:45 A. M., arrive Wilmington 12:50 Noon.

This Sleeping Car Service, which will be operated until Sept. 16th, will afford comfortable accommodations for passengers visiting the Mountains of North Carolina.

The old established through sleeping car line between Wilmington and Atlanta will be continued via Augusta, in connection with the Georgia Railroad, upon the following schedule:

LV. Wilmington ... 3:45 P. M.  
LV. Florence..... 7:55 P. M.  
LV. Sumter..... 9:30 P. M.  
AR. Augusta (Eastern time) ..... 1:35 Night  
AR. Atlanta, (Central time) ..... 6:10 A. M.

Returning: leave Atlanta 8:35 P. M., arrive Florence 8:45 A. M., arrive Wilmington 12:50 Noon.

Passengers may remain in this car, in the Union Depot, which is in the heart of Atlanta, until 7:00 A. M., if they so desire, and on account of the earlier arrival of this train, and the use of the Union Depot, convenient connections may be made with through Observation-Dining-Sleeping Car-Coach trains which leave from same station for Chicago, Cincinnati, St. Louis, etc.

Connections are made at Florence with above trains by leaving Smithfield at 3:08 P. M., and equally good connections are made returning.

For fares, tickets, etc., apply to J. A. CAMPBELL, Ticket Agent, Smithfield, N. C.

## ATLANTIC COAST LINE

The Standard Railroad of the South.
