#### SELMA SCHOOL NOTES.

The Selma Graded School bought a Liberty Bond last week. We are all very proud to say that we are doing something to help win the war. This idea originated with the eleventh grade. They are to take the lead in getting money for this bond. Here are a few reasons why we should buy a Liberty Bond: First, the government has got to have money to equip the soldiers that are fighting. Second, if the government can't get the necessary money to give the soldiers the things that are necessary to keep them disturbed by rubbing against a post. in fighting condition, they will have to Some of the pigs were slightly drawn raise the money by taxes, which no one - can escape. If your money is given for Liberty Bonds, you will get the money back and also 4 per cent interest, but if it is paid into taxes, the money will never come back. Third, Cermany has raised money by Liberty Bonds and has found it a success. If all the people respond to this offer, it will be a success with us. Fourth, it shows a patriotic spirit. We cannot all be Red Cross nurses nor can we go to the front, but we can all do our bit by buying a Liberty Bond. The burden of this war is heavy and should be borne by all and not a few. We can all help bear this burden by buying a Liberty Bond. The Selma School is proud that she has done her bit .- L. R. S.

Friday morning, October 26, the chapel exercises were very interesting. After Mr. Moser had made a few remarks to the school, the third and fourth grades gave an interesting proplay "The Water Lily." A LOSS OF FEED.

How Lice and Worms Cut the Pork Profits.

Some time ago I visited a certain feed lot and discovered a very eviion: loss of feed due to an all too common cause. It was in the fall of he year and the owner had just commenced the feeding of a fine bunch of pigs on new corn. The little fellows had the promise of big bone and the broad lengthy conformation that make for profitable feeders. In this respect they were certainly fine and all of near the same size and weight to start with but there seemed to b something wrong somewhere. Their hair was off color and stood out in little ragged tufts as though frequently and seemed rather stiff on their legs.

"What's the matter with those pigs?" I asked the owner, "you've got a fine looking bunch of feeders but there's something wrong with them.'

"Nothing wrong that I know of," responded the owner, "they've been running loose on pasture all summer and have't had any corn to speak of and I suppose that must be the reason they do not look as good as they

During the short conversation had been looking more closely at a few of the pigs. I had discovered somethe enrollment is complete, the rething, and drew the owner's attention to it. I took hold of his arm in a friendly sort of way and pointed to a number of montrous hog lice crawling over the backs of some of the near shoats. "That's what's the matter with your pigs," I remarked.

\*\*\*\*\*\*\* WILSON'S MILLS SCHOOL. \*

By Harriet Uzzle.

\*\*\*\*\*\*\*\*\* Thursday and Friday were test days at the school. These test days does, whether it continues in the war fourth grade.

The motto spirit has caught the some of the mottoes:

"Our Flag," "Our State," "Our Corn," and "Our Mosquito."

Our Principal visits some teacher n her room on test day. He was with Miss Bridges this time. He reports that Miss Bridges is well prepared to receive the second section of fifth and sixth grade pupils who have been assisting in housing the crops and will soon be in school. He reports that the quantity of work covered is fully enough, but insists on a more intense effort at thorough ness. All the adopted books were in use, order was splendid, and application to the work was earnest.

A health survey is being taken. This covers all health conditions. Each pupil is being questioned. When sults in figures will be published.

Friends of the school were glad to read in the November number of North Carolina Education of the endorsement of the work being attempted by our Principal when he combined the Reading Circle Work, the The young fellow had been feeding Community Club Work, and the Lit erary Society Work in one workable organization. Incidentally Professor

We are learning more about the ase of our library since it has been ndexed anew. References, and we have many, are not so hard to find. We notice very few books that can be used in the Primary Grades. Very little material is also found pertaining to Short Story work. There are in all one hundred and seventy-five books.

The society under the direction of a committee is preparing to present

WHAT WILL RUSSIA DO?

Charles Edward Russell Back From Slav Republic With Startling Revelations.

"What the new Russian republic A Strength-Builder for the Nation our office. Rand & Lawrence. ome once a month for seven months or makes a separate peace with Gerduring the year. If a pupil averages many may mean one million Amerias much as ninety per cent on the can lives and twenty billion Ameriseven monthly tests there is no final can dollars," says Mr. Charles Edexamination for him or her. This plan ward Russell, who has just returned only applies to grades above the from his trip as special, investigator for President Wilson on conditions in the new Slav republic. "What Russia school. Cards are being prepared will do," he continues, "is therefore on school mottoes. The following are one of the most interesting questions that now confronts the American people."

Mr. Russell himself is very hopeful. He does not believe that the new Russia will desert her allies. The fact that some things go poorly in the government does not surprise him half so much, he says, as the fact that any thing goes well. This is particularly true, he thinks, of conditions in the army; and he continues to show in his article in Heart's Magazine, which under the circumstances amounts almost to an official report on these matters, why the breaking down of army discipline was inevitable, and why in spite of the loss of Galicia and Riga and a general demoralization in other sections of the line, the Russian fighting force will come through stronger and better than ever and play a dominant part in the great general offensive which it is an open secret the allies will undertake next spring. These opinions have the value of having been reached through the personal observations of not only a trained student, but of one by temperament and experience is particularly fitted to judge and appreciate the spirit of the new Russian social democracy.

#### What If It Were Your Child?

What would you think of the fath er and mother who knowingly sent their child with a sore throat to school who a few days later came down with a bad case of diphtheria? And how much harder would you think, if you knew that the infected child bad, innocently so far as it was concerned, exposed your own little boy or girl to this dread disease? Now, turn the case around and get the other viewpoint. Suppose you were the parent that had permitted your child to infect your neighbor's child? How would you feel about it? No need to wards you, because you know. Why not, then, be as careful and as considerate of the health of your neighbor's children as you would ask that they be in protecting the health and safety of yours ?- Health Bulletin.

# It is all very well to make claims.

but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

R Cod Liver and Beef Peptones, Iron and Manganese Peptonates, Iron and Am-monium Citrate, Lime and Soda Glycero-phosphates, Cascarin.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength. All weak, run-down, overworked

nervous men and women may prove this at our expense There is nothing like Vinol to restore strength and vitality to feeble

old people, delicate children and all persons who need more strength. Try it. If you are not entirely satisfied, we will return your money without question; that proves our

fairness and your protection. HOOD BROS., Smithfield, N. C.

### When Housework Drags

Keeping house is hard enough when well. The woman who has a bad back, blue, nervous spells, and dizzy headaches, has a hard lot, for the family tasks never let up. Probably it's the result of kidney trouble and not the much-feared 'woman's weakness." Strengthen the kidneys with Doan's Kidney Pills. They are as harmless as they are effective and may be used for children with weak kidneys, too.

### A Smithfield Case.

Mrs. R. L. San-ders, Smithfield, says: "I had dull pains in my back. I was stiff in the morning. I had headaches and dizzy spells and at times my sight was blurred. I bought Doan's Kidney Pills at Hood

Bros.' Drug Store and they relieved me very much, putting my kidneys in good shape. I gladly recommend them."

# Why I Believe in Nuxated Iron

By E. Sauer, M.D.

Probably no remedy has ever met with such phenomenal success as has Nuxated Iron. It is conservatively estimated that over three million people annually are taking it in this country-alone It has been highly endorsed and used by former United States Senators and Members of Congress; Physicians who have connected with well-known hospitals have prescribed and recommended pitals have prescribed and recommended it; Monseigneur Nannini, a prominent Catholic Clergyman, recommends it to all members of the Catholic Church. Former Health Commissioner Wm. R. Kerr, of Chicago, says it ought to be used in every hospital and prescribed by every physician. Sarah Bernhardt—"the Divine Sarah," the world's most noted actress—has ordered a large quantity sent to the French soldiers to help give them strength, power and endurance.

Dr. A. J. Newman, late Police Surgeon of the City of Chicago, and former House Surgeon. Jefferson Park Hospital, Chicago, says Nuxated Iron has proven tarough his own tests of it to excel any preparation he has ever used for creating red blood, building up the nerves, strengthening the muscles and correcting digestive disorders.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

after meals for two weeks. Then test your strength again and see how much you have gained.

NOTE—Nuxated from which has been used by former Members of the United States Senate and House of Representatives, and other prominent people with such surprising results, and which is prescribed and recommended above by physicians in such a great variety of cases, is not a patent medicine nor secret remedy, but one which is well known to druggists said whose iron constituents are widely prescribed by eminent physicians everywhere. Unlike the older inorganic iron products, it is easily assimilated, dees not injure the teeth, make them black nor upset the stomach; on the contrary it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron, that they offer to forfeit \$100 to any choritable institution if they cannot take any man or woman under 60 who lacks from and increase their strength 100 per cent, or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed by all good druggists.
