SOME SCHOOL NOTES. By Supt. L. T. Royall.

Last week it was our privilege to attend the State Meeting of County Superintendents and Teachers' Assembly, at Charlotte. It seems that every County Superintendent was present, except a very few who were providentially hindered. The State Superintendent presided at the Department of County Superintendents. The Counties were not only represented by the Superintendents, but also by a good many of the County Boards of Education. In a joint meeting, some very important subjects were discussed. Some of these were: Medical Inspection of School Children, Consolidation and Transportation, Adult Illiteracy, Certification of Teachers and Teacher's Salaries.

Dr. Faison, of Charlotte, made a splendid talk, in which he emphasized medical inspection of school children, showing why this should be done as early as possible. Johnston County's time for this will come a little later, since this is to be carried out through the whole State.

Some of our Counties are making rapid progress in the consolidation and transportation of pupils, as shown by the reports of the different Superintendents.

There was a cry for teachers. Nearly every County is short in this line. It was emphasized that something must be done, in order to pay the teachers' better salaries. Some of the Superintendents seem to think, that unless this is done, next year it will be a great deal harder to secure teachers than it has been this year.

An Organization of County School Boards was perfected, with Col. A. H. Boyden, of Salisbury, as Chairman. The Assembly was so large, that it was necessary to have a number of departments, namely, the Association of County Superintendents, of High Schools, of City Superintendents, of Primary Teachers, of Grammar Grade Teachers, of Music Teachers and of Agricultural and Home Economic Workers.

Charlotte received all the teachers gladly and gave them a royal welcome, and providing for them in the way that Charlotte does things. This was greatly appreciated by all those present.

Just a few words in regard to State High Schools; a number of County Superintendents, it seems, have been representing some of these schools as local schools. The fact was emphasized that these must be considered in no way, except as County wide schools. We have three in this County, namely, Benson, Kenly and Wilson's Mills. Free tuition is given to all pupils in these schools who have studies above the seventh grade, and to all teachers who are taking any course whatever in these schools. These are not local schools and we are anxious for the people in the County to find this out.

We were fortunate enough while at the Assembly to secure a few very good teachers, though we have not enough yet to supply all the vacancies in the County. We are doing all we can to fill these. The State Board of Examiners has recently made arrangements to give permits for one year, to some teachers who have taught before, and to some who have not taught, who have the proper qualifications.

The last night of the Assembly was Patriotic Night. At this meeting Gov. Bickett and Dr. Graham, President of the State University, addressed the Assembly.
