

ing under an engagement to be at Boston on the anniversary of the Battle of Bunker's Hill, which is the 17th of June; the General has a journey before him of about five thousand miles, to be performed in something less than four months. The greater part of the vast and fertile regions which he is about to visit...now teeming with population, and abounding in all the arts and comforts of civilization...has been reclaimed from the savage and the wilderness since La Fayette last left our shores for his own country. His eye will dwell with delight on the uninterrupted prospect of plenty and happiness which will every where greet his sight; and he will exult while he sees all these blessings crowned with the enjoyment of institutions so dear to his generous heart...*Nat. **New Cabinet...**We have seen several Letters of recent date from Washington, all of which concur in stating confidently that the following arrangement of the New Cabinet will be submitted to the Senate by Mr. ADAMS immediately after his inauguration:

HENRY CLAY, of Kentucky, Secretary of State;

RICHARD RUSH, of Pennsylvania, Secretary of the Treasury;

JAMES BARBOUR, of Virginia, Secretary of War;

\*SAMUEL L. SOUTHWARD, of New Jersey, (to remain) Secretary of the Navy;

WILLIAM WIRT, of Virginia, (to remain) Attorney-General;

JOHN M'LEAN, of Ohio, (to continue) Post Master-General;

DE WITT CLINTON, of New-York, to be offered the appointment of Minister Resident near the Court of St. James.

**Hayti.**—Port au Prince papers to the 9th ult. state, that the anniversary of Haytien independence was celebrated on the 1st; during which the President delivered an address, in which he called on the senate, the army, and the people, to "swear to posterity, and to the whole world, to renounce forever, not only the domination of France, but that of all other powers whatever, that may wish to reduce us to submission, and to die rather than cease to be free and independent."

**Mexico.**—The Baltimore Federal Gazette of Saturday, contains a letter from Alvarado of the 8th January, by which it appears that the schr. Susan, belonging to Baltimore, had been carried in as a prize on the 3d January, on account of having supplies on board for the castle. On the same day, another schooner, American colours, name unknown, anchored between the city of Vera Cruz and the Castle, and is said to have been sunk at her moorings by a fire from the city—the Castle opened its batteries against the city and the firing continued twenty four hours. On the 8th, another prize, Baltimore schooner, name and where from unknown, had been made near the Castle. This, adds the writer, "is disagreeable intelligence, and I fear the last capture may relate to some schooner expected from your port."

**Brazil.**—Late intelligence from Rio, mentions the arrival there of the cutter William, and the Rover, from London, each with 500,000 dollars in silver, and the latter with one million sterling, loaned by Rothschild

to the Brazillian government. The British frigate Aurora, from Lima and Valparaiso, bound to England, with nearly three millions of dollars on board, arrived at Rio, Nov. 10.

It is mentioned in the Hartford (Con.) Times, as a proof of the high value of real estate in that city, that a piece of land 4 feet 5 inches and 5-8ths in width and 93 feet in depth, situated on the west side of Main street, was sold last week for \$1,000.

It is proposed in Massachusetts, to establish under the patronage of the State, an Institution calculated to afford a thorough and economical education to the laborious classes in Practical Arts and Sciences.

A few days ago 25 packages of cloth, cassimeres, flannels, laces, calicoes, &c. passed through Philadelphia for Washington. They are the production of our Eastern manufactures, and intended for the proposed exhibition at the capitol.

**From New-Orleans.**—By the brig Joseph, in 27 days from New Orleans, we have received papers of that place to the 17th Jan'y, inclusive. The captain of a vessel which left Jamaica about three weeks previous, had brought accounts that considerable apprehension existed at Kingston, relative to an intended insurrection among the blacks. Many owners of estates, it was said, had left the island in disgust, the produce of their lands not paying cost of cultivation, and the negroes growing daily more insolent in consequence of the late act of parliament, backed by the interference of the missionaries. There was little business doing at Kingston.—*N. Y. Ec. Post.*

*From the Western Carolinian.*

Within a few weeks past, considerable quantities of GOLD have been found on the land of Matthias Barringer, in Cabarrus county, 17 miles south east of this place. Mr. Barringer was digging for gold on the banks of a small branch, when he struck a vein of the precious metal, running into a hill; in pursuing it a short distance it became very rich. It was seven feet long and about four inches wide; and in that space yielded about 140 or 150 weight of ore, which when purified will probably make five or six thousand dollars worth of gold.

This gold differs considerably in its character from what has heretofore been found, either in Cabarrus or Montgomery. It is found in veins of quartz, running through slate rock; while the other is found in loose sand and gravel in perhaps an alluvial soil.

Mr. Barringer's gold appears to be combined with an ore, and appears to be less pure; while the specimens heretofore found, contain nothing but the pure gold, or at most but little dross. When melted, its color is somewhat different from the metal found at Mr. Parkers, resembling more the yellow of brass. The lucky discovery of the vein above-mentioned by Mr. B., spread through the country like wild fire: the consequence of which was, that the banks of his brooks were soon ornamented with men, women and children—adventurous spirits, come to dig up their fortunes out of the sand and rocks, armed with mattocks, spades, buckets, frying-pans and other implements necessary to dig and wash gold. Neither rain, snow, nor severe

cold could daunt their ardor, so long as they could find a particle to cheer them on. But we understand the business is becoming rather dull, and of course the ardour of the diggers considerably abated. They are retiring home to await a new stimulus—when the mattocks and frying-pans will again be arrayed on the banks of "Long creek" or "Currel-tail branch."

**Adventures of a pound of Cotton.**—The following history of a pound weight of manufactured cotton will show the importance of trade to the country in a very conspicuous manner.—The wool came from the East Indies to London, from London it went to Lancashire, where it was manufactured into yarn; from Lancashire it was sent to Paisley; where it was woven; it was next sent to Ayrshire; where it was tamped; afterwards it was conveyed to Dumbarton, where it was hand-sewed, and again returned to Paisley, when it was sent to a distant part of the county of Renfrew to be bleached, and was returned to Paisley, whence it was sent to Glasgow, and was finished; and from Glasgow was sent by coach to London. It is difficult to ascertain precisely the time taken to bring this article to market, but it may be pretty near the truth to reckon it three years, from the time it was packed in India until in cloth it arrived at the merchant's warehouse, in London, whither it must have been conveyed at least 10,000 miles by sea and 920 by land, and contributed to reward no less than 150 people whose services were necessary in the carriage and manufacture of this small quantity of cotton, and by which the value has been advanced two thousand per cent. ....*N. Y. Paper.*

**Commerce and Navigation.**—The Secretary of the Treasury of the United States has made a report to the Senate on the commerce and navigation of the United States. From his statements, it appears that the imports in year ending on the 30th September, 1824, have amounted to \$80,549,007, of which amount, \$75,265,054 were imported in American vessels, and \$5,283,953 in Foreign vessels; that the exports have during the same period, amounted to \$50,986,657, of which, \$50,649,500 were domestic, and \$337,157 were foreign articles; that \$50,033 tons of American shipping entered, and 919,278 cleared from the ports of the United States; and that 102,357 tons of Foreign shipping entered, and 102,552 cleared from the ports of the United States during the same period.

**Longevity.**—Died, in Hillsborough, on the 9th instant, Henry Thompson, sen, upwards of 102 years of age. He was a native of Ireland, and came to this country in the year 1755. He had resided in that town upwards of 50 years.

In Orange county, Bryant Judge, an Irishman, aged 105 years and 10 months. This singular man, until a day or two before his death, retained the vigor both of his mind & body, being able to walk four or five miles in a day. By misfortune and imprudence he was driven from the possession of a handsome competency, and compelled to live, for last twenty years, upon the charity of his countrymen, who generously extended to him that kindness and assis-

tance which seems to be instinct of the Irish character.

**Curious bequest.**—A Bachelor Gentleman, who came from England a few months ago, lately died in the neighborhood of New York, and has directed by Will, that the whole of his personal property, amounting to about \$20,000, after the payment of £200 in legacies to his servants, consisting of a female, with him at the time of his decease, and a boy who left him a short time since, be equally divided between ten of the oldest maids resident within ten miles of his late and native abode, in England. **The celebrated Race Horse**

**BYRON,**

A MOST beautiful Bay, with black legs, mane and tail, four years

old this spring, five feet 3 inches high, will stand the present season, at the residence of Mr. Thomas Eaton, in the County of Halifax, on the road leading from Halifax to Mr. William Eaton's Ferry, about 4 miles above Mr. William W. Wilkins' Ferry, and 18 miles from the town of Halifax; he will stand at Mr. Eaton's on each Monday and Tuesday in every week, and at Mr. James Haile's on each Wednesday and Thursday, in every week, and will be let to mares at the very reduced price of TEN DOLLARS the Season, Five Dollars the Single leap, and TWENTY DOLLARS to ensure a mare to be in foal, with Fifty Cents to the groom in every instance.

Mares furnished with good pasturage gratis, and fed if required at the neighborhood price, but will not be responsible for accidents or escapes.

**PERFORMANCES.**

BYRON when two years old was entered on a stake to be run the fall after he was three years old, for Two Hundred Dollars entrance, two mile heats, five Subscribers, it being the only time he was trained; he won the race in great style, beating Mr. Johnston's colt by Timoleon and Col. Wynn's sorrel filly by Archie, at three heats; Mr. Harrison and Mr. Wyche paid forfeit.

**PEDIGREE.**

BYRON was gotten by the celebrated Sir Archie, his dam by the imported horse Bedford, his granddam by Federalist, which mare was half sister to the celebrated old Jolly Friar, his great granddam by Fearnought, which mare was the property of Archibald Hamilton, and at the sale of his blooded stock, was purchased by Mr. Ben-nihan of Orange, and supposed to be the best mare in North Carolina of her day, his great great granddam by Janus, and his great great great granddam by Jolly Roger, out of a Double Janus mare, so it is obvious to all those who read the pedigree of Byron, that he partakes of two of the best stocks in America: To wit: Sir Archie and Janus.

The Season will commence the 1st of March, and expire the 1st of July.

Tho's W. Jenkins,

Woodlawn, Feb. 24. 50-4t
